P R E F A C E

The present issue of the Statistical Abstract (New Series, No. 8) incorporates in a single Volume the latest available data under the important heads of economic and social development. In addition to national aggregates for a period of five to ten years generally, information in respect of individual States of the Indian Union is given for the latest available year. Every year the Abstract introduces new material and eliminates relatively less useful data. The alterations made have been listed in tabular statements on pages (x) to (xiii). Statistical charts and maps introduced for the first time in the previous issue (No. 7), have been continued and suitable additions on a few important topics have been made increasing the number to 20 charts.

2. The publication would serve not only as a convenient source of reference but also as a key to other statistical publications of Central Government agencies. The primary sources are indicated at the foot of each table ; the relevant publications of the Departments mentioned will furnish more detailed information. The various sections of the Abstract are preceded by brief explanatory notes which are intended to be read in conjunction with the tables.

3. The continuing co-operation and suggestions for the improvement of the Abstract received from the various Ministries of the Government of India, the State Governments and the public are acknowledged with gratitude.

4. The following symbols have been used throughout the Abstract :

.. = Not available
— = Negligible or nil.

5. Some of the units of measurements used are explained below :

One lakh	= 100,000 (one hundred thousand)
One crore	= 10,000,000 (Ten millions)
One maund	= 82 $\frac{2}{7}$ lb.=37.345 kg.
One ton	= 2,240 lb.=1.016 metric tons
One cwt.	= 112 lb.=50.8 kg.
One lb.	= 0.4536 kg.
One yard	= 0.9144 metre
One acre	= 4840 sq. yds.=0.4047 hectare
One rupee	= 16 annas, 64 pice or 192 pies (old) = 100 naye paise.

6. For the conversion of temperature in Fahrenheit (F) to Centigrade (C) the relation is $C = \frac{5}{9} (F - 32)$.

Issued by
**Central Statistical Organisation,
Cabinet Secretariat.**

CONTENTS

SECTION	PAGE
1 CLIMATE	1
Rainfall: normal and actual—temperature: monthly maximum and minimum, monthly mean—relative humidity: monthly mean	
2 AREA AND POPULATION	18
Area and Population: by States and districts—Population: cities, growth, mid-year estimates and density—land area: topographical distribution—age, expectation of life, livelihood—Employees, employers, workers—Languages.	
3 MIGRATION AND PASSENGER MOVEMENT	43
Emigrants: skilled and unskilled—ports: departure, destination—emigrants, returned from abroad—passengers carried in un-berthed passenger-ships—foreign tourists.	
4 VITAL AND PUBLIC HEALTH STATISTICS	57
Birth rate—death rate: by causes—hospitals: dispensaries, beds, patients treated—registered medical practitioners and nursing personnel—diseases—mental hospitals.	
5 EDUCATION	76
Educational institutions—scholars—expenditure—teachers—rural education and expenditure—examination results—education of Scheduled castes, etc.—literacy.	
6 PRINTING PRESSES AND PUBLICATIONS	117
Presses at work, newspapers, periodicals, books published—books in Indian languages.	
7 JUDICIAL AND ADMINISTRATIVE STATISTICS	121
Judicial divisions, officers, cases—Civil cases—miscellaneous cases—appeals—criminal cases: persons tried, convicted, and acquitted—registration of documents—civil police: strength and cost—crimes: cognizable and non-cognizable—property: stolen and recovered—Police Force: equipment and general management—Police offences—prisoners, convicts, jails—sickness, mortality, expenditure.	
8 NATIONAL FINANCE	207
Revenue and expenditure on revenue account: Central and State Governments—Revenue and expenditure: Customs, Central Excise duties, Corporation tax and Income-tax.	
9 INCOME TAX	259
Classification of demand: Income-tax, super tax, and surcharge.	
10 LOCAL BODIES	293
Population, constitution, income, expenditure—Municipalities District and Local Boards, Port Trusts—Municipalities with population of 50,000 and above.	

CONTENTS—*contd.*

SECTION	PAGE
11 EXCHANGE, COINAGE AND CURRENCY	325
Money rates—Exchange rates—Prices : Government Stock, Silver and Gold—Sterling purchases and sales—Government Promissory notes enfaced for payment of interest—money coined and re-coined—Gold and Silver : Exports and Imports—Notes issued—notes in circulation—Absorption of Currency—Money supply.	
12 PRICES CURRENT	343
Index number of wholesale prices—wholesale prices of staple articles—Working Class Consumer Price Index—Security Prices.	
13 BANKS	367
Capital, Cash liabilities, cheque clearances.	
14 JOINT STOCK COMPANIES	375
Companies at work : number, paid-up capital, companies liquidated companies registered elsewhere—Index of Industrial profits.	
15 INSURANCE	403
Indian life insurers—Postal Insurance Fund—Fire, marine and miscellaneous Insurance Companies.	
16 CO-OPERATIVE SOCIETIES	416
Central, agricultural, non-agricultural : number, membership and financial position.	
17 AGRICULTURE	425
Land utilization statistics—area—yield—agricultural production index—average yield—agricultural implements and machinery—Grow More Food Campaign—Land Revenue and Assessment.	
18 IRRIGATION	465
Area and crops under irrigation.	
19 FORESTS	469
Area and outturn—protection of forests—regeneration and afforestation—employment in forestry and forest industries.	
20 SERICULTURE	476
Total Production : Mulberry and non-Mulberry silk—production of silk yarn.	
21 LIVESTOCK STATISTICS	482
Livestock and livestock produce—Fish catch and disposition.	
22 MINERAL PRODUCTION	490
Production of minerals and ores—Quantity Index of Mineral Production—working of mines.	
23 LABOUR	503
Employment : Central Government, Public works, State Transport Services, Municipalities, Factories, Mines, Plantations, Shops and Commercial Establishments, Employment Service, Earnings, Accidents, Industrial Disputes, Workmen's compensation, Labour training.	
24 TRADE UNIONS	578
Registered Trade Unions—Worker's Unions, Employer's Unions Numbers, membership, income, expenditure and funds.	

CONTENTS—*contd.*

SECTION		PAGE
25	INDUSTRIAL PRODUCTION Census of Manufacturing Industries—Mill Production : Cotton piece-goods, Cotton yarn—Electricity generated and sold—Manufacture and issue of Salt—Selected Industries—Indices of Industrial Production.	586
26	PATENTS AND DESIGNS Number of applications—Income from fees.	643
27	RAILWAYS Summary—Passengers—Goods—Capital-at-charge—Earnings and Expenses—Accidents to persons.	648
28	MOTOR VEHICLES Number taxed—Motor vehicle fees and taxes.	665
29	ROADS Extra municipal roads : mileage —Central Road Fund.	670
30	SHIPPING Vessels entered and cleared with cargoes or in ballast—Foreign and coastal Trade—Shipping at five principal ports—Vessels belonging to or registered in India—Vessels first registered in India.	675
31	CIVIL AVIATION Indian Airlines Operations—Scheduled Internal and International Services.	691
32	POSTS AND TELEGRAPHS Post Office : letters, postcards, newspapers, parcels, packets, money orders, savings bank, capital account—Telegraph and Telephone: Offices and lines—Radio telegrams.	694
33	OVERSEAS COMMUNICATIONS SERVICE Traffic : Telegraph, Telephone, Radiophono : Words and Value—Multi-address newscasts—Capital, Revenue and working expenses.	711
34	MERCHANDISE MARKS Detentions.	716
35	TRADE (A) Foreign —By Sea, Air and Land. Merchandise and Treasure : Imports, Exports and Re-exports : Countries of consignment or destination—Currency area-wise—Principal articles of merchandise—Indices of Quantum and Value per unit—Land Frontier Trade : Tibet, Nepal, Sikkim, and Bhutan—Balance of trade. (B) Coasting Total value : merchandise and treasure. (C) Inland Rail and River-Borne Trade—Principal articles—States and Chief ports.	718
36	BALANCE OF PAYMENTS Current Account—Capital Account—Current Account : currency area wise.	765

**STATEMENT SHOWING THE TABLES ADDED IN THE
CURRENT ISSUE (1957-58)**

Serial no.	Table no. in the current issue (1957-58)	Description
CLIMATE		
1	4	Mean Relative Humidity (By meteorological sub-divisions).
AREA AND POPULATION		
2	9	Mid-year Estimates of Population.
3	13	Mean Expectation of Life.
4	14	Number of Persons Speaking Various Languages.
MIGRATION AND PASSENGER MOVEMENT		
5	26	Number of Foreign Tourists who came to India.
VITAL AND PUBLIC HEALTH STATISTICS		
6	31	Registered Medical Practitioners in India.
7	32	Total number of Registered Nursing Personnel.
EDUCATION		
8	46	Literacy in India.
EXCHANGE, COINAGE AND CURRENCY		
9	110	Money Supply with the Public.
TRADE		
10	251	Value of India's Foreign Trade by Sections, Division and Groups according to SITC.
NATIONAL INCOME		
11	270	Comparison of Movement of Net National Out-put at current and constant Prices.
12	273	Relationship between National Income and some other main aggregates of Income and Product.
13	274	National Income and Expenditure.
ELECTORAL STATISTICS		
14	275	Elections to House of People.
15	276	Elections to State Legislative Assemblies.
16	277	Representation in State Legislative Councils.

**STATEMENT SHOWING THE TABLES DELETED FROM
THE CURRENT ISSUE (1957-58) AS COMPARED
WITH THE PREVIOUS ISSUE (1956-57)**

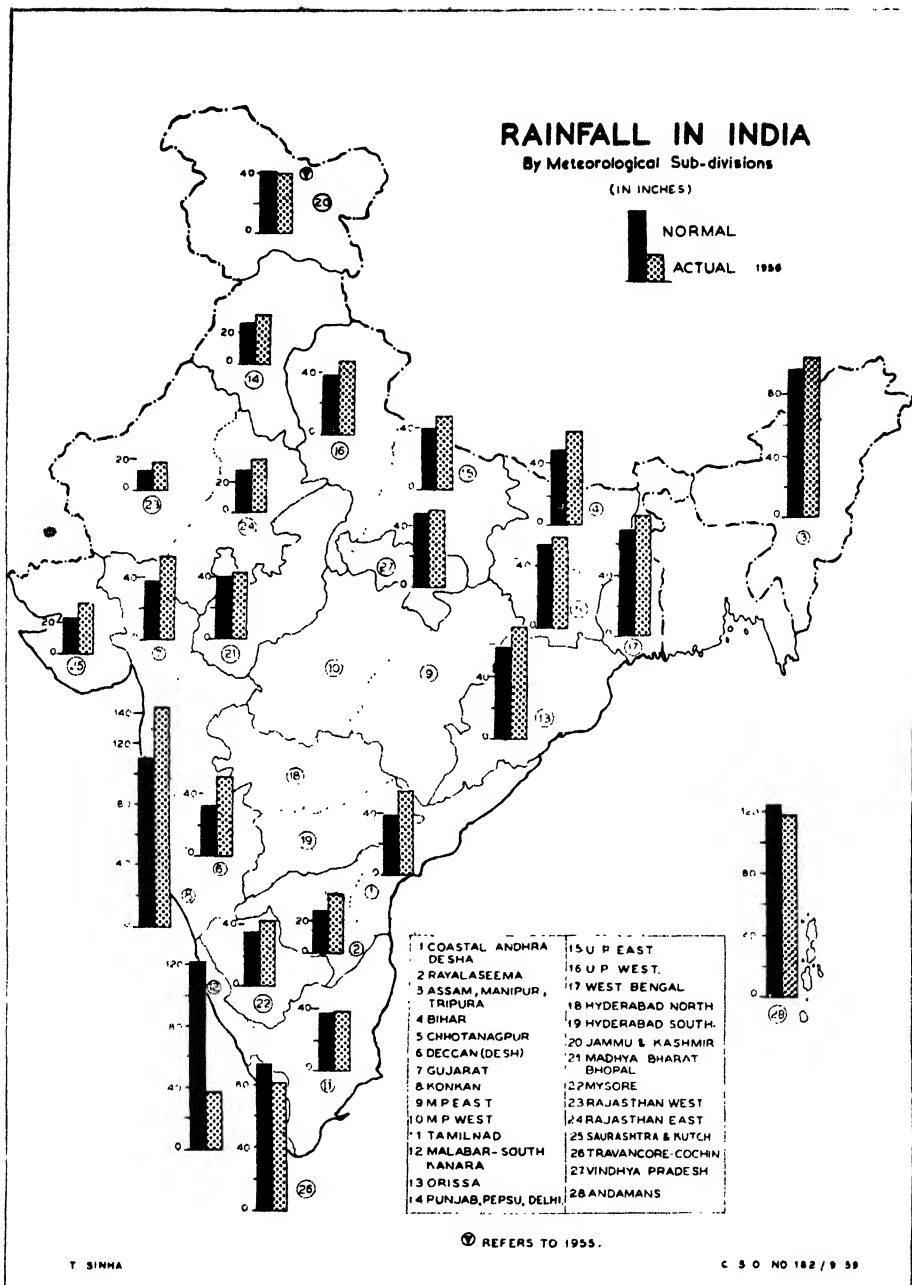

Serial no.	Table number in the previous issue (1956-57)	Description
CLIMATE		
1	5	Abstract of Hours of Bright Sunshine.
VITAL AND PUBLIC HEALTH STATISTICS		
2	23	Summary of Births and Deaths in India.
3	28	State, Special, Railway, Private, Non-Aided and Subsidized Hospitals and Dispensaries.
JUDICIAL AND ADMINISTRATIVE STATISTICS		
4	47	Number and Value of Civil Suits Instituted.
5	67	Number and Disposal of Convicts in the Jails and Subsidiary Jails.
6	69	Offences Committed by Convicts and the Punishments Inflicted in the Jails and Subsidiary Jails.
7	74	Working of the Mark System in the Jails and Subsidiary Jails.
NATIONAL FINANCE		
8	82	Opium Revenue and Expenditure.
EXCHANGE, COINAGE AND CURRENCY		
9	105	Old Government of India Rupees (including Small Silver Coins) Received into the Mints for Recoinage.
10	108	Value of Gold and Silver (Coins and Bullion) Received and the Amounts coined in the Mints.
11	113	Receipts, charges and Net Profits of the currency Department.
AGRICULTURE		
12	144	Distribution and size of Land Holdings, 1953-54.
IRRIGATION		
13	147	Irrigation Works—Principal Results of Operation.
14	148	Inland Navigation Going on Irrigation Works.
INDUSTRIAL PRODUCTION		
15	196	Mill Production of Cotton Yarn in India (by Counts), 1948-49 to 1954-55.
16	198	Mill Production of Cotton Piece-goods in India (by Description), 1948-49 to 1954-55.

**STATEMENT SHOWING THE TABLES DELETED FROM
THE CURRENT ISSUE (1957-58) AS COMPARED
WITH THE PREVIOUS ISSUE (1956-57)—*contd.***

Serial no.	Table num- ber in the previous issue (1956-57)	Description
<hr/>		
MISCELLANEOUS		
17	265-270	This Section has been deleted. Information contained in Tables 265-267 has been transferred to the Section of Industrial Production (Tables 201-203); Tables 268-270 (Shops licensed for the sale of liquors, opium and other intoxicating drugs ; Issue of Medical and Excise opium ; and Area and Production of opium) have been deleted.
APPENDIX		
18	Appendix E.	List of Scheduled Tribes.

**STATEMENT SHOWING THE CHANGES EFFECTED IN THE
TABLES IN THE CURRENT ISSUE (1957-58) AS
COMPARED WITH THE PREVIOUS
ISSUE (1955-56)**

Serial no.	Table no. in the previous issue (1956-57)	Table no. in the current issue (1957-58)	Changes effected
CLIMATE			
1	1 & 2	1	Figures of percentage variation from normal rainfall have been deleted.
AREA AND POPULATION			
2	8	7	Information on female per thousand female and mean decennial growth rate has been deleted.
3	9	8	Growth of population, 1901 to 1951, has been given instead of that from 1931 to 1951.
4	12	12	Age distribution of population, 1951 census, has been given instead of age and civil condition of population, 1951 census.
5	14	17	Male-female classification regarding information on 'employers' 'employees and independent workers' has been discontinued.
VITAL AND PUBLIC HEALTH STATISTICS			
6	27	30	Figures of number of hospitals, dispensaries, beds and patients treated have been given instead of statistics of State-aided hospitals and dispensaries.
NATIONAL FINANCE			
7	76	78 & 80	Data on ordinary revenue have been presented in two tables—One giving figures for Central Government only and the other for State Governments.
8	77	79 & 81	Data on expenditure on revenue account have been presented in two tables—one giving figures for Central Government only and the other for State Governments.
JOINT STOCK COMPANIES			
9	124A & 124B	126	Information on number of foreign companies only has been given and that relating to their paid-up Capital has been deleted.
LABOUR			
10	175	176	Statewise details of labour employed in mines have also been given.
TRADE			
11	252 & 253	256 & 257	Quantity of imports and exports of principal articles have also been given, in addition to value.
APPENDIX			
12	Appendix C & D	270-277	Data is now presented under separate Sections on National Income and Electoral statistics respectively.

CLIMATE

Meteorological data are recorded at some 380 observatories of the Indian Meteorological Department and over 3,200 rain recording stations maintained by the respective State Governments.

The meteorological sub-divisions shown correspond more or less to the chief political divisions of India. They underwent revision during 1950 as a result of merger of states and formation of new states, and again with effect from 1-1-57 consequent on reorganisation of states.

Rainfall.—Actual rainfall is recorded at 0830 hours I.S.T. each day throughout the country. The amounts measured give the rainfall of previous 24 hours. The rainfall data are tabulated at the offices of the State Officers controlling registration of rainfall and published in the State Gazettes. They are subsequently consolidated and issued by the Indian Meteorological Department in the form of two publications each year, *viz* (i) Daily Rainfall of India and (ii) Monthly Rainfall of India.

Table 1 :—

Normal rainfall.—This table shows the normal and actual rainfall for the various meteorological sub-divisions of the country for the years 1947—56. The figures for normal rainfall are averages of rainfall data available up to 1940. The minimum length of the period used for working out the normal rainfall of any station is five years and the maximum is eighty years. Normals of rainfall of about seventy five per cent of the rain-gauge stations whose normals have been utilised in calculating the normals of rainfall for the various sub-divisions are, however, based on data for thirty years or more.

Table 2 :—

Temperature.—This table contains monthly figures for mean, maximum and minimum temperatures at selected centres. Observations of temperature of air in shade are taken at most of the observatories twice a day at 0830 and 1730 hours I.S.T. For this purpose, thermometers are installed at a height of 4 ft. above ground in Stevenson Screens which provide a free access to the air but, at the same time, protect the thermometers from direct rays of sun.

Table 3 :—

This table gives monthly figures of mean temperatures for meteorological sub-divisions. For this purpose the average of the mean, maximum and minimum temperatures for a station is taken as the mean temperature and the mean temperature over the several stations in the sub-division are averaged to obtain the mean temperature of the sub-division.

Table 4 :—

Humidity.—Relative humidity is the measure of the amount of water vapour present in the atmosphere relative to the corresponding amount for saturation. It is recorded at the principal observatories by standard recorders, at 0830 and 1730 hours I.S.T.

These data are published in greater detail in the "Monthly Weather Reports" and the "India Weather Review—Annual Summary", brought out by the Meteorological Department.

AREA AND POPULATION

This section provides an abstract of the available data concerning the area and population of the Indian Union based on the Census of Population of 1951, since rearranged as a result of reorganisation of States on the first of November 1956.

Table 5 to 7 :—

For the purpose of these tables, localities which have distinct urban features have been regarded as "towns". The tests prescribed in this regard (for distinguishing towns from villages) were based on ideas common to all States but not identical; nor were they applied with meticulous uniformity. Generally an urban area was defined as: (1) any area which has Local Body administration, (irrespective of its population) and (2) any other continuous group of houses inhabited by not less than 5,000 persons and having distinct urban characteristics, *viz.*, centre of trade or commerce, high density of dwellings, existence of public utility services or dependence of a higher proportion of population on non-agricultural means of livelihood. For the country as a whole, the percentage of population living in towns with less than 5,000 persons is only about 3.3% while that of persons living in villages with population above 5,000 is 5.3%.

Table 8 :—

This table gives six census population from 1901 to 1951. Percentage variations of 1941 population over 1931 population and that of 1951 over 1941 are also given in this table.

Table 9 :—

This table is freshly added to this issue. The figures represent the mid-year estimates of population framed by the Registrar General of India.

Table 10 :—

The population, land area, density of population and per capita land area by regions and sub-regions are given in this table.

Table 11 :—

This table gives the distribution of land area according to topographical factors.

Table 12 :—

This table gives age distribution of population according to single year and by sex. Figures are based on a 10% sample of population excluding displaced persons.

Table 13 :—

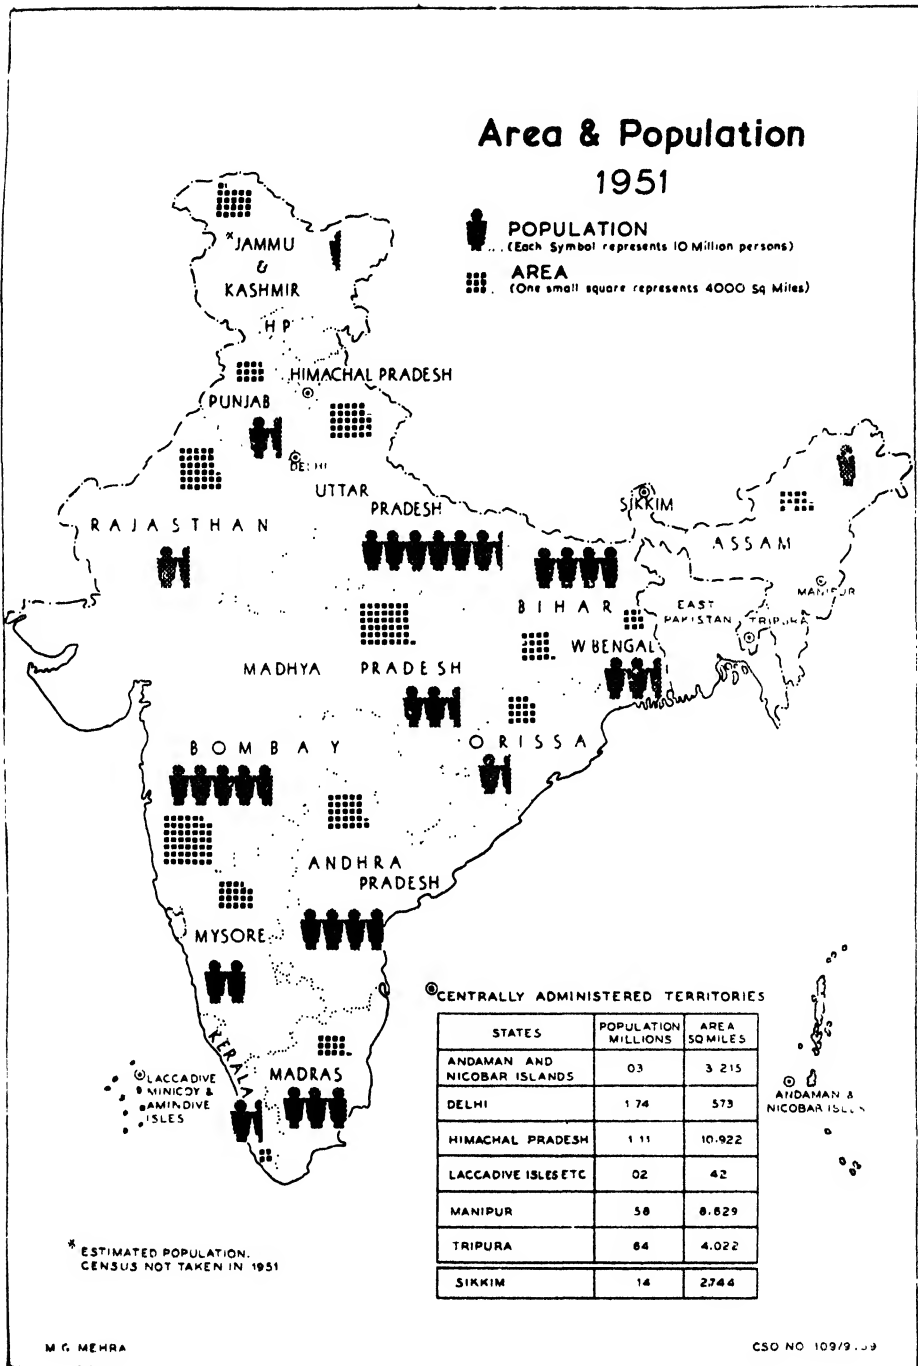

This table on mean expectation of life is a new addition to this issue. The figures in the columns against the age represent the number of years a male and a female is expected to survive over the respective age.

Table 14 :—

This table gives the population distribution according to languages spoken.

Tables 15 & 16 :—

In these tables, the total population is divided into two main livelihood categories, *viz.*, (a) Agricultural and (b) Non-agricultural. Each main

category is again sub-divided into four sub-categories namely (a) (1) Cultivators of land wholly or mainly owned and their dependents (2) Cultivators of land wholly or mainly unowned and their dependents (3) Cultivating labourers and their dependents (4) Non-cultivating owners of land, agricultural rent receivers and their dependents and (b) (1) Production other than cultivation (2) Commerce (3) Transport and (4) Other Services and Miscellaneous.

All India figures under each of the above category are further classified by (1) self-supporting persons (2) non-earning dependents and (3) earning dependents in table 16.

Table 17 :—

This table is devoted to self-supporting persons of non-agricultural classes which have been classified under Industries and Services with reference to the nature of the commodity produced or the service rendered by them. Self supporting persons are further divided into Employers, Employees and Independent workers.

No. 5.—AREA AND POPULATION—BY STATES

Ministry of Home Affairs.

NOTE.—The age table of the 1951 census is not based on the entire population. A ten per cent. sample of the population (excluding displaced persons) was taken at the preliminary sorting of the enumeration slip for every village and ward of a town. The data are based on this sample population. In this table the sample data for males and females have been raised with reference to the total male and female population respectively for each zone and the all-India figure has been arrived by adding up the zonal figures.

(b) Does not include persons classifiable under any other division or sub-division.

MIGRATION AND PASSENGER MOVEMENT

Available statistics relating to the movement of population between India and other countries are given in this section.

Tables 18 to 20 :—

Emigration.—“Emigrant” for the purpose of these statements means any person who migrates or has migrated or has been registered as such under the Indian Emigration Act, 1922. Emigrants who proceeded to different countries and were repatriated therefrom under some rule or convention or otherwise assisted to return have been shown separately. They exclude passengers on unberthed passenger-ships (explained in a later paragraph), who returned on their own. Total figures according to sex and occupation are shown for a period of ten years from 1949 to 1958 and in addition further classification according to countries of destination is given for the years 1957 and 1958. Ports of embarkation with number of emigrants are shown separately.

The primary statistical data in each case are compiled by the Protectors of Emigrants at ports. This information is consolidated by the Ministry of External Affairs in the *Annual Report on the Working of the Indian Emigration Act (1922)*.

Tables 21 to 25 :—

Passengers by unberthed passenger-ships.—These tables deal with the number of passengers carried in unberthed passenger-ships from ports in India on different kinds of voyages. An unberthed passenger-ship means a ship carrying more than 30 unberthed passengers. The term ‘unberthed passenger’ denotes a passenger not less than 12 years of age for whom no separate accommodation in any cabin, state room, or saloon is reserved; this term does not include a passenger in attendance on a berthed passenger-ship, nor a child of less than one year of age. A passenger between the ages of one and twelve years is counted as half towards the total number.

The voyages are classified as “long” and “short”. The distinction between the two is that when a ship is expected to be continuously out of port for more than 120 hours it is said to be on a long voyage ; otherwise on a short voyage. Long voyage figures are given for ports of destination out of India while short voyage figures are sub-divided into three classes i.e. to ports (1) within the same State, (2) beyond the State but in India and (3) out of India. Total figures for all the above categories are given from 1948-49 to 1957-58. Detailed figures from 1952-53 are also shown giving the number of passengers from each port of departure to each port of destination on long and short voyages. The Mercantile Marine Department, Ministry of Transport collect these statistics from the agents of the shipping companies under the Indian Merchants Shipping Act XXI of 1923.

Table 26 :—

This table is a new addition to this issue. Tourist traffic covers persons visiting India for a period of not less than 24 hours and not more than six months, for purposes of business, holiday, pleasure, study, reasons of health, domestic reasons, attending meetings or in a representative capacity of any kind e.g. diplomatic, scientific, administrative, religious, athletics. The term ‘tourist’ excludes a large number of travellers viz., migrants, persons in transit, transport crews, troops etc. It also excludes foreign students even though they receive remittances from their home countries. Visitors coming from Pakistan are also excluded. Tourist statistics, enumerated in table 26, therefore, do not provide a total picture of the volume of tourist traffic. This table shows tourist traffic from 1951 to 1957 classified according to the countries of origin of the tourists.

Birth & Death Rates

(Per Thousand Population)

VITAL AND PUBLIC HEALTH STATISTICS

Available information concerning vital and public health statistics in India is shown in the tables under this section. Data in greater detail are published by the Ministry of Health, Government of India, and the various State authorities in the form of periodical reports. The information relates to all states of the Indian Union, unless otherwise specified. The latest year for which vital statistics are available is 1957. While the figures for that year are shown in greater detail, corresponding figures for the earlier years are shown in totals only.

Tables 27 and 28 :—

Table 27 shows state-wise distribution of birth rates classified into rural and urban, while table 28 shows the death rates per 1,000 of mid year population, recorded in registration areas, where registration of births and deaths is compulsory.

Table 29 :—

This table shows death-rate per 1,000 of population, according to cause of death. The more commonly known epidemics are shown separately, while the remaining diseases are grouped together. Comparative rates of death from various causes in some cases reveal wide variations between different states but it is difficult to give any reason for the variation. Hence, inter-state comparison may not be strictly valid. However, the figures may be used for comparison over a period of years for the same area.

Table 30 :—

This table shows the number of hospitals and dispensaries together with the number of patients treated indoor and outdoor, and the number of beds available.

Table 31 :—

This table gives the actual number of medical practitioners (allopathy) registered with the medical councils in the states.

Table 32 :—

This table gives the actual number of nursing personnel, registered with nursing councils or Boards, according to different categories.

Tables 33 & 34 :—

Number of patients treated in various hospitals and dispensaries by diseases, for All India and for states is given in these two tables.

Table 35 :—

Data concerning mental hospitals are separately shown in this table.

EDUCATION

From 1949-50 to 1955-56, the information contained in this section covers all former Part A, B, C and D States. The information for 1956-57 relates to reorganised states except in table 46. The information in respect of North East Frontier Agency has been included from 1954-55. In tables 37 to 45, All-India totals are given for years starting from 1949-50, while statewise details are given for the year 1956-57.

TABLE 36

The summary table gives a general idea of the educational development in the country from 1949-50 to 1956-57. As co-education is largely in vogue, the information, regarding the number of institutions and scholars studying in them, does not mean that only men and women are exclusively studying in them. However, to give an idea of the comparative growth of education among men and women, the total number of men and women scholars in all institutions are also given separately.

The terms "Men" and "Women" connote "Boys" and "Girls" wherever relevant.

Information about expenditure relates to recognised institutions only. By direct expenditure is meant expenditure directly connected with the maintenance of an institution viz. salary of teachers and other recurring expenditure, while indirect expenditure means all expenditure on inspection, direction, miscellaneous, etc.

TABLE 37

Number of Recognised Educational Institutions.—In this table data on various types of recognised institutions for men and women, are given for the period 1949-50 to 1956-57. Recognised institutions are those which are recognised by the Government and offer the prescribed courses of study. They are open to inspection and general direction by the Education Department of Government and their pupils are ordinarily eligible for admission to public examinations and tests held by the Department or University.

TABLE 38

Number of Scholars in Recognized Institutions by Stages of Instruction (General Education).—This table shows the number of men and women scholars receiving instructions at various stages of general education. In the other part of the table, number of men and women

Progress of Education

(In Recognised Institutions)

scholars receiving instructions in various subjects of professional and special education is also shown.

TABLE 39

Expenditure on Recognised Educational Institutions (by sources).—This table gives the distribution of total expenditure according to sources from which finances are drawn.

TABLE 40

Expenditure (by types of education).—This table shows the total expenditure on recognised institutions. Distribution by types of institutions is shown in the case of direct expenditure while totals for all institutions for men and women are given for indirect expenditure.

TABLE 41

Teachers in Educational Institutions.—This table shows the number of men and women teachers in different types of recognised institutions *viz.* primary schools, secondary schools, etc. Teachers are classified to show how many are trained and how many untrained in schools for general education.

TABLE 42

Number of Institutions and Scholars in Rural Areas.—This table shows progress of education in rural areas, *i.e.* the areas outside the limits of municipal, cantonment, notified and small-town committees. The various types of institutions for men and women have been enumerated. The enrolment shown in this table relates to the number of scholars (men and women separately) coming from rural areas, irrespective of whether they are studying in institutions located in rural areas or urban areas.

TABLE 43

Expenditure on Rural Education (by Sources).—Classification of expenditure on rural education, both direct and indirect, is given in this table by sources.

TABLE 44

Examination Results.—This table gives State-wise distribution of scholars who passed matriculation and other university examinations.

TABLE 45

Education of Scheduled Castes and Backward Tribes.—This table shows the progress of educational facilities including scholarships and stipends given to scheduled castes, scheduled tribes and other backward classes. The number of pupils shown here is inclusive of those reading in institutions meant for all communities. The number of institutions and pupils given in this table are also covered in earlier tables.

TABLE 46

This table shows total literate population in India, according to the educational standards achieved, as recorded in 1951 census.

PRINTING PRESSES AND PUBLICATIONS

Table 47-48:—

In this section, an account is given of the number of printing presses in the country and of newspapers, periodicals and books published during each year from 1948-49. The latest year for which details are available is 1955-56. State-wise distribution with All-India totals (based on the States for which data are available) is given for the latest year while only totals are given for the earlier years.

JUDICIAL AND ADMINISTRATIVE

Table 49—76

This section presents information relating to the administration of Civil and Criminal Justice, Registration, Police and Prisons. The data have been compiled from the returns furnished by the State Governments. Information upto the year 1948 was collected from the former Provinces alone. However, in the Civil and Criminal Justice portions, the figures for 1948 are inclusive of Bhopal, Bilaspur and Tripura also. Those for Registration during 1948 also include Travancore-Cochin in addition to the above three states.

An attempt has been made to collect the data since 1949 on an all India basis. The *totals* for 1949 onward would, therefore, not be strictly comparable with earlier data.

Figures relate to the calendar years unless otherwise mentioned. Totals for the latest year relate to the States for which data are available.

Revenue Expenditure Capital Expenditure

NATIONAL FINANCE

The tables contained in this Section cover, in general, the transactions on revenue account not only of the Central Government but also of the State Governments which have separate resources and separate balances. The figures represent actual cash receipts and disbursements during the financial year April to March, as distinguished from amounts due to or amounts payable by Government during the same period.

Tables 77—81

The section begins with a general statement of the revenue and expenditure on revenue account and of the surplus or deficit of the Central and State Governments which is followed by four tables showing, in somewhat greater detail for the year 1956-57, statements of ordinary revenue and expenditure on revenue account of the Central and State Governments having separate accounts. Detailed statements of receipt and expenditure of some of the principal heads of revenue are also given. As reorganisation of States took place in 1956-57, two sets of figures, one for the period prior to reorganisation *i.e.* 1st April 1956 to 31st October 1956 and the other for that after reorganisation *i.e.* 1st November 1956 to 31st March 1957, have been given for such States as were affected by it.

Tables 82—85.

Detailed figures of receipts and expenditure of customs, union excise duties, corporation tax and taxes on income other than corporation tax and estate duty, have been given in these tables.

Figures in this section have been collected from the office of the Comptroller and Auditor General of India.

(a) Difference represents the share of P.W.S.U. State adjusted by the A.G.C.R.

INCOME TAX

Statistics presented in this section relate to the assessments on account of Income tax, Super-tax and surcharge made by the Income-tax Department. The figures refer to regular assessments made under the Income-tax Act and do not include demands raised for advance payment, provisional assessments or miscellaneous demands like penalties, warrant fees, etc. Figures of taxes represent the demand raised and not the collections actually made against those demands. The scope of the Income-tax Act was enlarged from 1950-51 by extending it to the whole of India except the state of Jammu and Kashmir. From 1954-55, this state is also included.

Tables 86-87:

These tables relate to old series wherein All-India analysis of demand for Income-tax and Super-tax by classes of assessee has been given for the years 1948-49 to 1952-53. Revised classification in regard to classes of assessee was adopted after 1952-53 and subsequent figures have been presented in separate tables.

Tables 88-89:

These tables analyse the demand for Income-tax and Super-tax according to the class of assessee *viz.* (i) individuals, (ii) hindu undivided families (iii) unregistered firms and other associations of persons (iv) registered firms and (v) companies and other concerns assessable at company rate. The statements are designed to show the total-tax demand (including surcharge) payable by assessee and net income left in their hands after payment of tax. The number of assessee shown are in respect of each source of income and an assessee having more than one source is included under each of the source from which he derived his income. Figures for the latest year *i.e.* 1957-58 are presented separately by grades of income and by states while all India totals are given from 1953-54 in table 86.

Tables 90-91:

The tables give an analysis of the tax demand on the income earned by assessee from (i) Dividends and (ii) Interest on securities according to the class to which they belong. Latest year figures *i.e.* for 1957-58 are further classified by grades of total income of assessee.

LOCAL BODIES

This section deals with statistics relating to the constitution and administration of local bodies, *viz.*, municipalities and district and local boards as constituted in the different states of India and also the three Port Trusts in Bombay, Calcutta and Madras. Figures include available information for all former Part A, B & C States.

Table 92

This table relates to the number of municipalities, total population within municipal limits, number of members, both official and non official, total income, taxation per head of population and total expenditure.

Tables 93 & 94

In these tables income and expenditure for the latest year of municipalities from which returns have been received, are shown in greater detail and all India totals for last 3 years.

Table 95

This table contains names of municipalities with population of 50,000 and above together with figures of their income and expenditure.

Table 96

Information regarding the number of district and local boards in each State together with the number of members and classification of members, income, and expenditure of these boards, is contained in this table.

Table 97

Statistics of port trusts under the broad heads namely, number and classification of members, income, expenditure and capital debt, are given in this table.

EXCHANGE, COINAGE AND CURRENCY

This section presents data on exchange, bullion, government securities, coinage and currency.

TABLE 98

Money Rates in India.—This table contains the highest and lowest of money rates ruling during the year (April to March) from 1948-49 to 1957-58.

Bank Rate.—The standard rate at which the Reserve Bank of India is prepared to buy or rediscount bills of exchange or other commercial paper eligible for purchase under the Reserve Bank of India Act.

State Bank of India Hundi Rate.—The rate at which The State Bank discounts first class three months' commercial bills.

Call Money Rate.—Relates to inter-bank advances repayable on call at the option of the lender.

Bazar Bill Rate.—Rates at which bills of small traders are reported to have been discounted by shroffs. These are unofficial quotations.

Treasury Bill Rate.—Represents the average rate of discount on Central Government Treasury bills sold to public during the period.

Deposit Rates.—As quoted by larger banks in Bombay.

TABLE 99

Foreign Exchange Rates.—Figures represent the official selling rates of Telegraphic Transfers in Bombay and are the averages of working days during the period. From June 15, 1955 they relate to free market rate except for Canada, Pakistan, U.K. and U.S.A. (free market rates for U.S.A. and Canada from Sept. 3, 1956).

TABLE 100

Prices of India Government Stock.—Quotations represent the actual prices of the principal Government of India securities. They are furnished by the brokers and are the average of daily selling prices during December each year at Bombay and Calcutta Stock Exchanges.

TABLES 101 and 102

Prices of Gold and Silver.—Spot quotations showing the highest, lowest and average prices of silver in London, New York and Bombay and of gold and sovereigns in Bombay. Average prices are the averages of closing quotations for working days.

Stock figures are the averages of week-end stocks.

TABLE 103

Sterling Transactions.—Figures represent purchase and sale of Sterling by the Reserve Bank of India and exclude Government transactions. *Purchases* include ready and forward purchases and cancellations of forward sale contracts while *sales* include ready and forward sales and cancellations of forward purchase contracts.

TABLE 104

Government Promissory Notes enfaced for payment of Interest in London.—Enfacement is an endorsement made length-wise across the face of a promissory note to the effect that the interest is payable at the place named in the endorsement. Holders of Government securities desirous of transferring them from India to London for payment of interest have to apply to any of the Public Debt Offices in India, tendering at the same time their Government Promissory Notes duly receipted for the purpose. The Public Debt Office then issues to the holders non-transferable London certificates under advice to London Office. The holders have to present these certificates to the Reserve Bank of India, London, in exchange for Government Promissory Notes, interest on which will be payable in London. The same procedure is followed when holders of Government Promissory Notes in London desire to draw interest in India.

TABLE 105

Number and Value of Coins minted.—Figures are shown separately for Bombay and Calcutta mints.

Indian mints have also minted coins for foreign countries like East Africa, Ceylon, Malaya, Straits Settlements, Iraq and Egypt. The number and value of such coins, together with those minted for Indian States have been shown separately within brackets below the figures of Indian money.

Classification has been made according to the metal of coins. The denominations of Indian coins included under each metal are explained below:—

Silver.—Includes quarternary rupees, half rupees and quarter rupees. The issue of quarternary (silver) rupee coins was discontinued from end of May 1946.

Nickel.—Only one-eighth rupees and one anna pieces were struck in nickel till 1946-47, when nickel half rupees and quarter rupees were also introduced. Nickel rupees were first struck during 1947-48. Nickel half anna was also introduced simultaneously.

Nickel Brass and Cupro Nickel.—Include one-eighth rupees, one anna and half anna pieces. Also include 10 naya paise, 5 naya paise and 2 naya paise introduced on 1st April 1957.

Bronze.—Includes single pice, half pice, naya paise and pices. Naya paise were introduced on 1st April 1957.

TABLES 106 and 107

Import and Export of Gold and Silver.—Figures represent the exports and imports of bullion and coins on private and Government accounts. Foreign sea-borne trade of Kutch has been included from 1st June, 1948 and of Travancore, Saurashtra and Baroda from 1st April, 1949.

Government of India rupee and half-rupee coins are shown at face value.

TABLE 108

Circulation of India Notes by Denominations.—Figures in this table relate to value of total notes issued (i. e. notes in circulation plus notes held in Banking Deptt. of Reserve Bank of India) Data exclude the Government of India one rupee notes (introduced in July, 1940), which are treated for the purposes of the Reserve Bank of India Act as rupee coins.

Notes of the denominations of Rs. 500, Rs. 1,000 and Rs. 10,000 were demonetised in January, 1946. New high denomination notes for Rs. one, five and ten thousands were again issued from April 1954.

Figures are net of India notes returned from circulation in Aden, but are inclusive of Rs. 43 crores of India notes returned from circulation in Pakistan and awaiting adjustment.

TABLE 109

Statistics of Note Circulation.—Figures are for the last Fridays of the year ending March. Figures for 1947-48 relate to undivided India, those from 1948-49 are net of adjustments made on account of (i) transfer of liabilities to the State Bank of Pakistan in respect of inscribed Pakistan notes issued between April and June 1948, (ii) cancellation of India notes returned from circulation in Pakistan under Section 4(2) of Part IV of the Pakistan (Monetary and Reserve Bank) Order, 1947, as amended, and (iii) India notes returned from circulation in Aden during the period October 1951 to 1952.

Rupee Coin.—Includes Government of India one rupee notes.

TABLE 110

Money Supply with the Public.—Figures exclude small coins, figures of notes in circulation are net of the return of Rs. 43 crores from Pakistan awaiting adjustment. Deposit money with the public comprise net liabilities of banks and other deposits with Reserve Bank.

TABLE 111

Absorption of Currency.—Figures relate to the Indian Union and are inclusive of notes and coins held by banks and at treasuries as also Indian currency in circulation outside India but exclude *Hali Sicca* currency. Adjustment have not been made in regard to the issue from January 26, 1950 of Indian currency in Hyderabad. Figures are, however, net of return of about Rs. 43 crores from Pakistan awaiting adjustments and net of adjustments made in respect of India notes retired from circulation in Aden.

Rupee coins. Include quaternary and nickel rupees Government of India one rupee notes are also included.

TABLE 112

Absorption of Small Coin.—Figures relate to the Indian Union.

Consumer Price Index Numbers

1949 = 100

(ALL INDIA AVERAGE)

Index Numbers of Wholesale Prices

52-53 = 100

(ALL INDIA)

PRICES CURRENT

Statistics of *wholesale prices* are based mainly on reports received from Government agencies and commercial bodies in important market centres. Information is available concerning almost all the principal commodities that enter into the trade of the country.

Table 113

Index Number of Wholesale Prices in India—This index is compiled by the Economic Adviser to the Government of India, Ministry of Commerce and Industry. It is a general purpose index with year ended August 1939 as base. It covers 78 commodities divided into 5 major groups and 18 sub-groups. The major groups comprise food articles (11), industrial raw materials (19), semi-manufactured articles (23), manufactured articles (19), and miscellaneous (6). The index is the geometric mean of price relatives with weights proportionate to the value of quantities marketed during 1938-39. Quantities retained by producers have been left out of account in the case of agricultural commodities and other industrial raw materials. With regard to manufactured and semi-manufactured products it is assumed that the entire production was put on the market. Percentage weights are as follows :—food articles 31, industrial raw materials 18, semi-manufactured articles 17, manufactures 30, and miscellaneous 4. The index is calculated once a week from weekly prices on or about Friday for 230 varieties of the 78 items. Monthly indices are the geometric averages of weekly figures.

A revised index of wholesale prices with base 1952-53=100 is also compiled by the Economic Adviser. The index includes 112 commodities and 555 individual quotations divided into six main groups. It is a weighted arithmetic mean of price relatives. The weights assigned to various commodities are based on marketed values of domestic produce and value of imports inclusive of duty. In regard to manufactures (intermediate and finished products) weights have been fixed according to gross value of products as obtained from Census of Manufactures 1948 also taking into account the imports. Weight for electricity is based on energy sold by electricity undertakings valued at average all-India rates. Petroleum weights are based on consumption figures. The weights generally refer to the period 1948-49. The weight base is thus different from the comparison base. Data for General Index (revised series) have also been specially converted to old base and shown side by side for comparison. Figures have been obtained on the basis: 100 of the revised Series=380·6 (being the average for 1952-53 of the old Series.)

Table 114

Wholesale Prices of Certain Staple Articles of Trade at Selected Stations in India.—Figures are given for several varieties in the case of most of the commodities but they generally relate to the chief market only in each case. The figures represent wholesale prices prevailing in markets during the last week of each month. Annual figures are averages of months.

Table 115

Working class consumer price index.—Figures for various centres relate only to working class families, heads of which are in full time regular employment. They represent changes in the cost of a given basket of goods and services consumed by an average working class household in each centre as determined by periodical field enquiries. The items in the list of articles are grouped under five heads *viz.*, food, fuel and lighting, clothing, house-rent and miscellaneous and separate indices are worked out for individual groups. The index for any group

is the weighted arithmetic average of the price relatives of several items in a group, the weights being proportionate to the expenditure of an average working class family on the item. To arrive at the general index, the group indices are averaged together after being weighted by percentages of total expenditure devoted to each of these groups by an average working class family. Rent figures in all cases are obtained from enquiries held at long intervals. No account is taken of the seasonality in prices of commodities and services included. Annual indices are arithmetic means of monthly indices.

All India average consumer price index and its constituents have been shown with base shifted to 1949=100. This index (original base, 1944=100) is a weighted average of indices for certain selected centres, the weights being figures of 'blown-up factory employment' (corrected for effects of partition wherever necessary) over the centres selected within the State in proportion to factory employment at each centre during 1944. In all, consumer price indices for twenty seven centres have been included in the all India series, 15 of which are compiled by the Labour Bureau on base 1944=100 and the rest by respective State Governments on varying base periods. The centres cover all the States except Jammu & Kashmir and also include the union territory of Delhi.

Table 116

Index Number of Security Prices.—The index number of security prices is a general purpose index compiled by the Reserve Bank of India. These series have been revised with effect from the first week of April, 1953. The average for 1953 thus relates to 39 weeks, ending December. The base period has been changed from the calendar year 1938 to the financial year 1949-50 and the method of compilation has been slightly modified inasmuch as that in the revised series the chained index numbers of the sub-groups are weighted instead of weighting the link-relatives.

In compilation of index, 468 scrips are included. These scrips were selected from among those quoted on the Bombay, Calcutta, Madras and Delhi (for variable dividend industrials) stock exchanges on the basis of importance of concerns to which they related and their activity in the market. The scrips were classified into four groups and thirty-eight sub-groups. Weights allocated to each of them were proportionate to the total amount of loans outstanding, in the case of *government and semi-government securities* and to the market value of shares during the base period in the case of *fixed-dividend and variable-dividend industrial securities*. Indices are calculated from weekly average prices for the selected scrips. Average quotations of the scrips during the base year represent arithmetic mean of daily quotations for the whole year. monthly and annual indices are similar averages of weekly figures.

Source : Reserve Bank of India.

(1) Annual averages are simple arithmetic average of weeks.

(2) Includes Semi Government securities also.

(3) From July 1957 figures relate to the revised series on 1952-53 base.

(a) Average of 35 weeks ending August 1953.

(b) Average of 39 weeks ending December 1953.

BANKS

The tables in this section present a consolidated picture of liabilities and assets of several important classes of banks under the following heads:—

(1) Reserve bank of India.

(2) Indian banks comprising:—

(a) the State bank of India and other Indian scheduled banks known as Class A1 Banks.

(b) Indian non-scheduled banks, i.e., banks not included in the second schedule to the Reserve Bank of India Act. These are subdivided into categories A2, B, C and D according to the amount of paid-up capital and reserves.

(c) Indian co-operative banks registered under the respective laws of the State where they are situated. These are also subdivided into Class A and Class B according to capital and reserve.

(3) Foreign scheduled banks, whose registered offices are located outside the Indian Union.

Besides the above, two tables showing (i) percentage of cash balances to liabilities on deposits of several classes of banks and (ii) total number and amount of cheques cleared are also given.

Some further notes are given below:—

TABLE II7 :

Progress of Banking in India:

A : Liabilities and Assets of Reserve Bank of India (Banking Department), Figures relate to the Indian Union.

B : Liabilities and assets of State bank of India.—Figures in this table relate to the business of the bank both in the Indian Union and abroad.

C : Liabilities and Assets of Foreign Scheduled Banks.—Data are as on the date of the balance sheets and relate to their business in the Indian Union only.

D : Liabilities and assets of Indian joint-stock banks.—This table includes joint-stock banks having their registered offices in the Indian Union. Figures relate to the business of the banks both in Indian Union and abroad.

E : *Liabilities and assets of Indian co-operative banks.*—Co-operative banks included in this table comprise state and central co-operative banks, and registered non-agricultural (urban) co-operative credit societies, upto 1956-57 with limited liability, each having a minimum paid-up capital and reserve of Rs. 1 lakh. Figures for 1957-58, include agricultural credit societies as well. Deposits include loans held, also, but this item is excluded from 1957-58 figures.

TABLE 118 :

Relates to percentage of cash balances to total deposits of different classes of banks as defined above.

TABLE 119 :

Cheque Clearance:—The table shows the number and amount of cheques cleared at each principal clearing centre. The total for all other centres is shown separately. The management of the clearing house at New Delhi and Nagpur was taken over by the Reserve Bank of India in August 1956 and March 1957 respectively.

Figures for other centres include the clearing houses at Agra, Ahmedabad, Allahabad, Alleppey, Amritsar, Bareilly (from April 1951). Bangalore City (upto December 1949), Cochin (from March 1954), Coimbatore, Dehra Dun, Gaya (from March 1947), Gorakhpur (from July 18, 1955), Hyderabad Dn. (from November 1949), Jaipur (from April 1952), Jullundur City, Kozhikode (Calicut), Lucknow, Mangalore Mathurai (Madura), Muzaffarpur (from November 1950), Delhi (from August 27, 1956), Patna, Poona, Rajkot and Sangli (from February 1957), Simla, Trichirapali (from June 1958), Varanasi (from May 14, 1958) and Vijaywada (from May 12, 1955).

Joint Stock Companies At Work

AS ON 31ST. MARCH

JOINT STOCK COMPANIES

Statistics relating to Joint Stock Companies are based on returns from Registrars of Joint Stock Companies.

TABLES 120 TO 125—

Statistics are given for number and paid up capital of companies limited by shares only. All figures shown relate to undivided India upto 1946-47 and thereafter to the Indian Union. International Standard Classification was adopted in 1954-55.

TABLE 126—

Number of Foreign companies which carry on business in India is shown in this table. The figures relate to companies incorporated elsewhere than in India, chiefly with sterling capital.

TABLE 127—

Figures are given for the actual number of companies and their total profits (before deductions for depreciation) as taken into account for in the Index of Industrial Profits (old series) presented in Table 128. Profits of the same companies in the previous year are also given.

TABLE 128—

The index of industrial profits (old series) gives only a rough estimate of fluctuations in company profits under the industries included and should not be treated as a general index of business profits. Figures are based on profits before deduction for depreciation.

Base —1939=100.

Coverage.—Comprises eight principal industries having an overall coverage of more than 60 per cent. in terms of paid up capital of all the companies in these industries. Judged by the total paid-up capital of all the companies in the entire field of trade and industry the share of the companies included would, however, not exceed 25 per cent.

Computation.—Chain system has been adopted both for individual industries and for all industries. Only net profits are included. The data are collected exclusively from Investors' Year Book published by M/s. Place, Siddons and Gough, Calcutta. The profits declared by a company in any year indicate the prosperity or otherwise of the company in the previous year. The index has since been replaced by a revised series as given in Table 129 and described below.

TABLE 129—

A revised index number of industrial profits (*base* : year ending June 1951=100) with wider coverage than the old series is now compiled and

published by the Reserve Bank of India. The index is based on data of industrial profits in respect of 750 public limited joint-stock companies for the years 1950 to 1955 and 1001 companies for 1956 and 1957. In terms of paid-up capital the coverage is about 66 per cent during 1950-1956 and 75 per cent in 1956 of all the companies in the industries covered. The main group indices and the general index are computed by the formula :

$$I_i = \frac{\sum_{j=1}^n P_{ji} \left(\frac{X_j}{x_j} \right)}{\sum_{j=1}^n P_{j0} \left(\frac{X_j}{x_j} \right)}$$

in which, I_i , represents the General Index for the i -th year, P_{ji} profits of the selected companies of the j -th industry for the i -th year, x_j paid-up capital of all companies in the j -th industry as at the end of March 1956, X_j paid-up capital of the selected companies at the end of March, 1956, and n the number of industrial groups. In respect of the sample of 1001 companies, the general index is compiled using the above formula for the year 1956 with base 1955 and this index is spliced with corresponding indices for 1955. For 1957, the indices are first compiled with 1956 as base and then spliced with indices for 1956.

Source : Reserve Bank of India.

(1) Includes non-ferrous metals, transport equipment, electrical machinery and machinery (other than transport and electrical).

(2) Includes basic industrial chemicals, medicines and pharmaceuticals and other chemicals.

INSURANCE

Figures in this Section refer to the insurance business of insurers registered under the Insurance Act, 1938. The Postal Life Insurance Fund (Tables 135 and 136) is, however, exempt from the operation of the Act. From the 1st September 1956, life insurance was nationalised and the existing business of Indian insurers and Provident Societies and Indian business of foreign insurers vested in the Life Insurance Corporation of India.

LIFE INSURANCE:—Figures are for the calendar year ending 31st December.

Table 131:—

Only important items of liabilities have been shown. They exclude liabilities on account of profit and loss, reserve funds, investment & fluctuation account and other outstanding liabilities. Assets shown are total assets including capital expenditure.

Tables 132 to 134 :—

Owing to nationalization, figures beyond 1955 in respect of Non-Indian Insurers relevant to tables 133 and 134 are not available separately and are included in table 130.

POSTAL INSURANCE

Tables 135 and 136:—

Figures are for the financial year April to March. Opening and closing balances include share of Pakistan, as the separation of policies for which Pakistan is liable, has not been completed as yet.

FIRE, MARINE AND MISCELLANEOUS INSURANCE

Tables 137 and 138:—

Figures are for calendar year ending 31st December.

(a) Includes the assets relating to the general department of insurers who were doing both life and general insurance business. This was not included in the figures for 1955.

CO-OPERATIVE SOCIETIES

Table 139—

The table under this Section shows in an abstract form the working of the co-operative movement in India. The figures relate to the whole of the present territory of the Indian Union. Prior to 1950-51, the statistics from different states did not relate to a uniform period. However, the data from 1950-51 onwards in respect of all states, except Jammu and Kashmir, pertain to one uniform period, *i.e.*, the year ended 30th June.

The Central societies include state (provincial) and central banks and banking unions, non-credit societies, central land-mortgage banks, supervising unions and state (provincial) unions or institutes. Agricultural societies include agricultural credit societies, agricultural non-credit societies, grain banks and primary land-mortgage banks. Non-agricultural societies include non-agricultural credit, non-credit and insurance societies.

'*Share Capital*' denotes the paid up amount '*deposits by members*' include deposits from cooperative institutions, primary societies, individuals and other sources. Figures for '*loans*' (col. 6) include loans from Reserve Bank of India. Loans from government are shown under '*state aid*.' and reserve and other funds under '*reserves*'. Figures of '*working capital*', in col. 10 of the table are totals of cols. 4—9. *Loans issued to members* include loans to banks and societies also.

Gross area Sown & Irrigated

AGRICULTURE

Available statistics regarding Agriculture shown in the following tables cover a period of ten years, the latest in most cases being the year 1957-58. While total figures for the whole of India are shown for the earlier years, their statewise distribution is shown only for the latest year. Figures relate to the Indian Union and include all states and Centrally Administered territories. The source for the data is the Ministry of Food and Agriculture, who in turn depend on the individual state authorities for primary returns.

Table 140:—

Area according to village papers is worked out from the returns of area prepared by the village staff for revenue purposes, whereas area by professional survey is calculated by the Survey of India. There is a slight difference between the above two sets of figures because of the different methods by which they are calculated and also because some areas are unsurveyed or no reporting agency exists there.

Area under forests shown in the 'Agricultural Statistics' does not agree, in most cases, with that given in the report on the administration of forest departments, because (1) the administration reports relate exclusively to forests worked by forest departments while the tables of agricultural statistics include in addition, forest areas administered by district officers and (2) certain village and other lands not covered by forests but worked by forest departments are not treated as forests in the returns of Agricultural Statistics.

Area not available for cultivation is land which is absolutely barren or inculivable or covered by buildings, water or roads or otherwise appropriated for non-agricultural purposes.

Other uncultivated land excluding fallows denotes land for cultivation but not taken up and includes culturable waste, permanent pastures and other grazing lands and land under miscellaneous tree crops.

Fallow lands denote culturable areas which after abandonment remain uncultivated over a defined period of varying length in different States upto 1950-51.

From 1950-51 a new classification of land area has been adopted under which "fallow lands" have been split up into "current fallows" and "other fallow lands". Standard definitions have now been laid down to be followed uniformly by all States. Lands lying fallow upto a period of one year are included under "Current fallows", those lying fallow for more than one year but less than five years are included under "other fallow lands" while those lying fallow beyond a period of five years are included under "culturable wastes" or under "miscellaneous tree crops and groves" (not included under net area sown) as the case may be. Before 1950-51 the practice differed from state to state, e.g., in Bombay, lands lying fallow upto a period of 10 years were formerly included under fallows while in Punjab those lying fallow for more than two years were classified under "other uncultivated lands excluding current fallows". Thus the figures of land area classification before and after 1950-51 are not strictly comparable.

Net area sown, area sown more than once and total cropped area—In computing the aggregate *net* area sown, the areas sown more than once have been counted only once. However, while calculating the total cropped area, if different crops are raised in a year on a given land, the same area is counted more than once.

Tables 141 and 142 :—

Figures are given for area and yield of 29 principal crops. Regular all-India forecasts are issued in regard to most of these crops *viz.*, all foodgrains, oilseeds, fibres, potatoes, sugarcane, ginger, black pepper, chillies and tobacco. The estimates for coconut are *ad hoc* while the figures for tea, coffee and rubber are based on regular returns received from State Governments.

The figures in respect of cereals and gram relate to both reporting and non-reporting areas while those for other crops refer to reporting areas only. The estimates relating to non-reporting area are based on special returns from State Governments.

The data relate to crop year ending June unless otherwise stated. Figures for the latest year are the final forecasts while those for the previous year are partially revised estimates as issued from time to time along with the final forecasts. Figures for earlier years are revised estimates.

The variation in coverage and changes in methods of estimation have introduced some uncomparability over time. The changes in coverage (acreage data) since 1949-50 do not substantially affect comparability, but improvements in the methods of estimating yield rates and total production (specially in case of foodgrains) were introduced mainly after 1949-50.

The total of area figures shown in table 138 would fall short of the total cropped area by about 10 *percent* due to the non-inclusion of (i) certain crops such as condiments and spices, indigo, and other dyes, opium and other drugs and miscellaneous food and non-food crops for which yield figures are not estimated and (ii) non-reporting areas under some of the forecast crops mentioned earlier.

Table 143:—

Average yield per acre in lbs. of 25 principal crops and 3 plantation crops namely tea, coffee and rubber is shown in this table.

Table 144:—

This table shows the index of agricultural production in India on base crop year ending June 1950=100. The index covers 28 crops divided into two main groups and six sub-groups. Weights have been assigned to different commodities in proportion to the total value of production of each commodity during the base period. The output has been evaluated at annual harvest prices prevailing during the year. In a few cases where reliable harvest prices were not available, average wholesale prices have been used with appropriate adjustment. The crops included and weights allotted to each are mentioned in the table.

The index numbers have been constructed by the chain base method in order to provide for changes in the estimated production due to extension in the geographical coverage or to variation in the method of estimation over time. The sub-groups, the groups and all commodity index numbers are the weighted arithmetic averages of production indices of crops covered. The concept of production for the series is *gross*, no allowance being made for seed or wastage. Livestock products and certain minor crops are not included in the index.

Table 145:—

This table gives an account of agricultural implements and machinery in actual use as recorded in the quinquennial livestock censuses. Statewise details are also given for 1956.

Table 146:—

This table shows achievements under works and supply schemes of the "Grow More Food Campaign". Works schemes are concerned with minor irrigation works and land improvement measures while the supply schemes are connected with distribution of fertilizers, manures and improved seeds.

Tables 147 and 148 :—

This table shows data concerning estimates of land revenue in different States, classified according to different systems of land tenure prevailing in the States, along with other particulars.

(a) Provisional.

(b) Includes 17.7 thousand tons for which details are not available.

(c) Includes 0.1 thousand tons for which details are not available.

(d) Includes 47.5 thousand tons for which details are not available.

(e) Included under other improvement works.

(f) Includes 0.2 thousand tons for which details are not available.

(g) Includes 0.3 " " " " " "

(h) Includes 0.5 " " " " " "

(i) Incomplete.

(j) Provisional and relates to the period from July '56 to March '57.

(k) Included under compost.

IRRIGATION

Statistics of area irrigated from different sources and total area of crops irrigated are presented under this section. All India totals are shown from 1946-47 and state-wise distribution is given for the latest year available.

Table No. 149:

Total area irrigated from different sources in this table represents net irrigated area. If two or more crops are irrigated in the same year from the same source, the area is counted only once.

Table No. 150:

Total irrigated area under various crops shown in this table represents gross irrigated area and includes area irrigated under more than one crop, during the same year. Area irrigated more than once in a single harvest is counted only once.

FORESTS

Table 151 :

This table deals with area of forest lands as shown in the Reports on Administration of Forests in the different states of the Indian Union. Areas under forest are classified by types of ownership, namely, state and private. State Forests include all forests under the control of a state through the forest Authority or other Government Deptt ; forests owned by corporate bodies have been included under private forests. Areas under forest are also classified by legal status such as "reserved" "protected" and "unclassed". Reserved forest is one which is permanently dedicated either to the production of timber or other forest produce and in which right of grazing and cultivation is seldom allowed. In protected forests, these rights are allowed subject to a few mild restrictions. Unclassed forests occur mostly in Madhya Pradesh, Assam, Bihar and Bombay and consist largely of inaccessible forest or unoccupied waste.

Table 152 :

Forest produce is classified as major produce and minor produce in this table. The column 'others' under major produce comprises 'round wood' and 'pulp wood' while that under minor produce includes animal products, fibres and flosses, rubber and latex incense and perfume wood vegetable oils and oilseeds, etc. Figures of quantity along with total value are shown in the case of the former and value only in the case of the latter.

Tables 153 to 155 :

These three tables give figures regarding:

- (i) area of forests protected from fire and cattle.
- (ii) progress of forest regeneration and afforestation.
- (iii) employment in forestry and forest industry.

Total figures have been shown from the year 1946-47 to 1955-56, whereas statewise distribution is shown for the latest available year 1955-56 which covers total Indian Union territory. Totals for the year 1946-47 relate to Part 'A' States, and Ajmer, Coorg and Andamans only, which were the only reporting areas up to that period, while those for subsequent years represent almost the whole of the Indian Union.

The coverage of forest statistics has increased since 1947 as compared with previous years, chiefly as a result of the inclusion of former princely states.

Further details concerning forest statistics are available in the *Indian Forest Statistics* and other publications of the Ministry of Food and Agriculture namely '*Agricultural Statistics of India*,' Volumes I and II.

SERICULTURE

Tables 156 to 159

Available data relating to sericulture, which are restricted to the production of raw silk and silk-yarn, have been collected by the Central Silk Board, with the cooperation of sericultural departments in the States and are presented in these tables.

Raw silk is of two kinds, *viz*, mulberry and non-mulberry. The distinction arises from the rearing of silk-worms upon either mulberry leaves or other plants. Mulberry silk is produced mainly in Mysore, West Bengal, Madras, Jammu and Kashmir, Assam and Punjab, although some other States have made some progress in this direction under their development plans. Non-mulberry silk, comprising *Tassar*, *Eri*, *Muga* is produced in Assam, Bihar, Madhya Pradesh, Orissa and West Bengal.

LIVESTOCK STATISTICS

Tables 160 and 161

These two tables give the number of livestock and poultry and the number of working cattle in India.

Data regarding the number of livestock and poultry, besides agricultural implements (shown separately under Agriculture) are collected through a census conducted quinquennially. In the rural areas, primary data are collected through the village revenue agencies where they exist and through other local staff, where they do not. In the urban areas, staff of the municipal or notified area committees collect the information. The data are compiled by the departments of agriculture, veterinary or land revenue, as the case may be, in the different States, and consolidated returns showing district-wise details are furnished to the Directorate of Economics and Statistics, Ministry of Food and Agriculture.

Data collected during the 1951 census have a better coverage than before as a result of political integration of the country after independence. Orissa and Manipur could not conduct the 1951 Livestock Census and as such data for these States as in 1945 have been repeated. Data for earlier censuses have been shown after adjusting them, as far as possible to the 1951 administrative set up. But they are not strictly comparable owing to variation in coverage.

Data for 1956 relate to the reorganised States. The livestock census for 1956 was conducted with reference date as 15th April, 1956 in all States except. Orissa and Manipur where the census was conducted only in 1957 due to certain administrative and other difficulties.

Tables 162 to 164

These tables give the production of milk and milk products, utilization of milk, and estimates of raw wool production in India. Figures for production of milk, ghee, and butter are estimates based on the livestock census. For consumption of milk, the source is the marketing reports, issued by the Directorate of Marketing and Inspection, Ministry of Food and Agriculture.

Tables 165 and 166

These tables give statistics of fish catch and landings by groups of species of fish and their disposition.

MINERAL PRODUCTION

Table 167:—

Statistics of production of various minerals up to 1955 included in this Section are taken from the Annual Reviews of Mineral Production in India published by the Geological Survey of India. These figures relate to all Act and Non-act mines. Figures for mines covered by the Indian Mines Act (1923) were collected by the Chief Inspector of Mines and supplemented, to the extent possible, in respect of Non-act mines by the Geological Survey of India. From 1956 the bulk of the statistics included here are based on returns received under the Mineral Conservation and Development Rules, 1955. The data are collected and compiled now by the Indian Bureau of Mines. The Mineral Conservation and Development Rules, however, do not cover coal, salt (sea), petroleum, atomic energy minerals and certain other minor minerals. Statistics of coal production continue to be collected by the Chief Inspector of Mines under the Mines Act, while those for salt are obtained from the Salt Commissioner. Figures relating to petroleum and atomic energy minerals are not available for publication. The basis of valuation is pit's mouth value of production except in the case of manganese where average export value per ton has been used. Statistics of mica production are considered incomplete and therefore figures of quantity and value of exports are given. State-wise classification for the latest year 1958 has been given according to the re-organised States. Quantity statistics of mineral production have been given in metric units. Data for total value of minerals include value of other minor minerals like stone, granite, slate, kaoline, clays, etc. which are outside the scope of Mineral Conservation and Development Rules.

Table 168:—

The index of mineral production on base 1951=100 given in this table covers 30 minerals classified into five broad groups according to the U.N. Standard International Industrial Classification, as specified below:—

- (1) Coal mining
- (2) Iron ore mining
- (3) Metal mining except iron ore mining
- (4) Stone quarries, clay and sand pits, and
- (5) Non-metallic mining and quarrying not elsewhere classified.

Statistics of production given in table 167 provide a framework for the index. Weights have been allotted to the different items in proportion to pit's mouth value of production in the base year 1951. As the statistics of mica production for 1951 are incomplete the corrected production figure for 1951 was taken as base and pit-head value thereof was used for assigning weights. The index is compiled on the basis of chain base method. The indices for sub-groups, groups and all minerals are weighted arithmetic average of the relevant items.

Table 169:—

This table on the working of mines in India relates to mines under Indian Mines Act (1923). Petroleum and salt are the only important minerals not covered by the Act. Totals are given for the years 1948 onwards while mineralwise details are shown for the latest year (1958).

Factory Employment and Earnings

AVERAGE DAILY NUMBER OF WORKERS EMPLOYED*

AVERAGE ANNUAL EARNINGS PER WORKER

* IN ESTABLISHMENTS UNDER THE FACTORIES ACT, 1948.

LABOUR

This Section presents data in respect of employment, wages and earnings, industrial disputes, accidents and agricultural labour. Details are given below :—

Employment—

Attempts have been made to cover statistics regarding employment both under the public and private sectors as far as figures are available. The following tables have been included:—

Employment in Central Government excluding Railways and Indian Missions and Embassies abroad (Table 170).

Employment in Public works including Central P.W.D, State P.W.D. and River Projects (Table 171).

Employment in State Transport Services (Table 172).

Employment in Municipalities (Table 173).

Employment in factories (Table 174).

Employment in factories according to age and sex (Table 175).

Employment in mines (Table 176).

Employment in plantations (Table 177).

Employment in shops and commercial establishments (Table 178).

Statistics relating to employment in factories have been collected under the provisions of the Indian Factories Act, 1934, up to 1948 and under the Indian Factories Act, 1948, thereafter. The old Act which was in force till 1948 covered factories employing 20 workers or more and using power, besides which certain factories, employing 10 workers or more whether using power or not were covered by notification in some of the States. The coverage has since been extended under the new Act to all factories employing 10 workers or more with the aid of power and 20 workers or more without the aid of power. Smaller factories have also been notified in some of the States under special powers given in the Act, but it has not been possible to include information relating to such factories.

TABLE 174-A.—This table gives figures collected under the two factories Acts mentioned above. Figures for the years 1947 to 1955 relate to all former part 'A' States and part 'C' States of Delhi, Ajmer and Coorg. Territories merged with Part 'A' States during this period have been gradually covered. Figures for the year 1956 relate to the reorganised states excluding Kerala, Mysore, J. & K. and Rajasthan and including only Delhi among the centrally administered territories. From 1950 onwards figures are compiled in conformity with the International Standard Industrial Classification,

TABLE 174-B.—Detailed figures regarding number of factories and average daily number of workers employed in each industry during the year 1957 in various States are given in this table. Annual totals for each State from 1948 are also shown. Coverage is the same as explained above under table 174-A.

TABLE 175.—Average daily employment in factories according to three broad age groups and sex is shown in this table. It has the same coverage as table 174-A. In the Indian Factories Act, 1948, the following changes were made in the definition of adult, adolescent and child, as compared to the Factories Act, 1934 :—

	<i>Under the old Act.</i>	<i>Under the new Act</i>
Adult	One who has completed 17 years.	One who has completed 18 years.
Adolescent	One who has completed 15 years but not 17 years.	One who has completed 15 years but not 18 years.
Child	One who has not completed 15 years (children below 12 years not permitted to work).	One who has not completed 15 years (children below 14 years not permitted to work).

TABLE 176.—The minerals covered are the principal ones for which regular employment statistics are available for the entire period covered. The figures given in this table represent the daily labour employed both above ground and under-ground. Up to 1953 figures relating to mines under the Indian Mines Act, 1923, were collected by the Department of Mines.

Figures from 1954 are based entirely on returns under the Indian Mines Act, 1952, the coverage of which is nearly cent per cent.

TABLE 177.—This table shows the average daily number of persons employed in tea, coffee and rubber estates. The Directorate of Economics and Statistics, Ministry of Food and Agriculture, collects figures of employment from tea, coffee and rubber estates every year through State Governments. All workers garden and outside, are covered. According to instructions laid down, each estate furnishes figures of 'average daily employment' by dividing the total man-days worked during a year by a standard figure of 300 working days. The figures of 'average daily employment' for individual estates are added up to obtain the 'average daily employment' for each industry *viz.*, tea, coffee and rubber.

TABLE 178.—Statistics of employment in respect of shops, commercial establishment, and restaurants, registered under the Weekly Holidays Act or Shops and Commercial Establishments Act in the various States are given in this table. These Acts are in force only in certain urban areas; covering municipal areas, towns and cantonments, and hence the statistics are limited to shops and commercial establishments in such areas. Further, there is no regular arrangement for collecting annual returns on employment from the individual units covered by the Act and the employment data were

collected specially by the State Governments at the request of the Labour Bureau. In some cases, the employment data were compiled from the figures furnished by the employers at the time of registration of the unit under the Act and in other cases they were collected specially by the inspectors appointed under the Act directly from the individual establishments. The Inspectors generally estimated the number of persons employed and it does not appear that any uniform measure of employment, *e.g.*, "average daily employment" for a period or "number on rolls" on a particular day was adopted.

Employment Service—

Statistics in this sub-section show the working of the Employment Exchange under the control of the Directorate General of Resettlement and Employment, Ministry of Labour and Employment. The nature of work undertaken by the Employment Exchanges consists of registering people who are seeking employment and securing employment for them.

TABLE 179—This table shows the number of applicants on the live-register of Employment Exchanges, according to the nature of jobs sought.

TABLE 180—This table shows the number placed in employment through the employment exchanges according to the nature of service and placements of certain special categories of applicants.

Wages and Earnings—

The statistics in respect of wages and earnings of factory workers are collected under the Payment of Wages Act. Figures upto 1955 relate to former Part 'A' States and Part 'C' States of Delhi, Ajmer and Coorg. Figures for 1956 relate to reorganised States excluding Kerala, Mysore, Jammu & Kashmir and Rajasthan and include only Delhi among the centrally administered territories. 'Wages' as defined in the Act, cover all remunerations capable of being expressed in terms of money and payable under the terms of the contract. The provisions of the Payment of Wages Act apply to all factory employees, including clerical and supervisory staff whose monthly earnings do not exceed Rs. 200 per month.

These figures have certain broad limitations, *viz.*, (1) the number of establishments furnishing returns may not be the same from year to year, (2) the coverage of the statistics has been enlarged with the coming into force of the Factories Act, 1948 because the definition of the factory has been extended to all factories working with the aid of power and employing 10 or more workers as also to those working without the aid of power and employing 20 or more workers.

TABLE 181—This table shows the total annual earnings of factory workers in each State.

TABLE 182.—This table shows the average annual earnings of a factory worker, according to States.

TABLE 183.—This table shows the average annual earnings of factory employees by industries.

While computing the figures of average annual earnings, the Food group, Beverages, Tobacco, Industries and Gins and Presses have been excluded, as these groups contain mainly seasonal factories where the annual earnings of workers rarely relate to a whole year and therefore would not be comparable with the data on earnings, in the case of perennial factories. Railway workshops are also not covered in these statistics.

TABLES 184 & 185:—This table shows Wages in Tea Plantations (cash earnings only) and Mining Industry. The figures relating to Tea Plantations are worked out on the basis of information available for 2 months in the year, viz., March and September, while those relating to Mines refer to the month of December each year.

Industrial Accidents—

Industrial accidents cover all accidents, occurring in factories or mines which result in either death or injury to a worker necessitating his absence from work for 48 hours or more.

TABLE 186.—This table shows statistics of injuries resulting from accidents in factories, collected under the Factories Act, 1948, from all factories registered under the Act in all former Part 'A' States and Delhi, Ajmer and Andaman and Nicobar Islands upto 1955 and thereafter in the reorganised States (excluding Kerala, Mysore, Rajasthan and Jammu and Kashmir) as also Delhi among centrally administered territories. Figures are given for number and frequency rate of fatal and non-fatal injuries in the above states for the year 1957 together with totals for earlier years.

TABLE 187.—This table shows number of accidents and number of injuries (i.e., number of persons receiving injuries) in Mines. The data are collected under the Mines Act. Accidents have been classified into fatal and serious. 'A serious injury' is one which involves, or in all probability will involve, permanent loss or injury to sight or hearing or fracture of limb or enforced absence of the injured person from work for a period exceeding 20 days. Complete statistics of 'minor injuries' are not available.

Data up to 1950 cover all the former Part 'A' States and Part 'C' States of Ajmer, Coorg, and Delhi. Figures from 1951 cover whole of Indian Union except Jammu and Kashmir.

Industrial Disputes—

Industrial disputes relate to strikes and lock-outs resulting in stoppage of work involving ten or more workers in all sectors of employment including mines, factories, plantations, transport, trade, municipal services, etc. Sympathetic strikes and certain other types of stoppages, which do not strictly come under the definition of industrial disputes as laid down in the Industrial Disputes Act, 1947 are not covered.

TABLE 188.—This table shows the State-wise distribution of the number of disputes, workers involved and the number of man-days lost on account of the disputes.

TABLE 189.—This table shows the classification of industrial disputes by causes.

Workmen's Compensation—

TABLE 190.—This table shows compensation paid to workers involved in industrial accidents under the Workmen's Compensation Act and excludes compensation for injuries paid under the Employees' State Insurance Act. For the purposes of compensation, accidents have been divided into death, permanent disability and temporary disability. It may be mentioned here that the number of accidents reported under the Factories Act or Mines Act need not necessarily be identical with the number of accidents actually compensated under the workmen's Compensation Act.

Labour Training—

TABLE 191.—This table shows the progress of the labour training scheme sponsored by the Ministry of Labour and Employment.

- (1) Excluding Railways and personnel employed in Indian Embassies and Missions abroad. According to the Census of Central Government Employees conducted by the Central Statistical Organisation employment in Railways as on 30-6-56 was 11,044,542 (including 22,659 work-charged employees). Figures for Indian Embassies and Missions abroad were 1,265 regular employees beside 1,761 locally recruited staff.
- (2) Includes all Gazetted and non-Gazetted officers holding posts of supervisory nature under administrative services, i.e., Office Superintendents, Head Clerks, etc., of Secretariats and other Officers and executive services, i.e., Superintendents of Excise, Deputy Superintendents of Police, Dock Superintendents, Labour Supervisors, Excise Inspectors, etc.
- (3) Persons holding posts of ministerial nature such as Assistant, Senior or Junior clerks, Typists, Stenographers, etc. From January 1955, the title of group has been changed from Clerical to Ministerial, and includes non-gazetted administrative staff formerly shown under Administrative and Executive.
- (4) All skilled and semi-skilled operative not included under the two categories above.
- (5) Including Daftaries, peons, etc.
- (6) Non-regular establishment includes persons paid from contingencies, work-charged staff and the daily or monthly rated personnel.

Ministry of Labour and Employment.

(1) Relates to training in Centres run by the Ministry of Labour and Employment (Director General of Resettlement and Employment).

(2) There was no apprentice training scheme in operation at the end of 1950.

(a) Excluding instructors receiving training at the Central training Institute, Koni-Bilaspur and I.T.I. New Delhi.

TRADE UNIONS

TABLES 192—196

Figures given in this Section relate to Trade Unions (registered under the Indian Trade Union Act, 1926) that have submitted returns. Data relate to the entire Indian Union but figures in respect of Jammu & Kashmir are not available Coorg was included in 1948-49. Agricultural trade unions were registered for the first time in 1947-48.

Registration of unions under the Trade Union Act is not compulsory. Data regarding unregistered Unions are not available. The figures are based on returns received only from about 50 to 60 *per cent* of the total number of registered Unions. The percentage response is indicated in column 4 of table 192.

NO. 192—NUMBER, MEMBERSHIP, INCOME, EXPENDITURE AND FUNDS OF REGISTERED TRADE UNIONS

INDUSTRIAL PRODUCTION

This Section deals with the following items :—

- (a) Census of Manufacturing Industries.
- (b) Production of cotton yarn and piecegoods.
- (c) Generation of electricity and manufacture of salt.
- (d) Production of certain selected industries.
- and (e) Index of Industrial Production.

Explanatory notes on the tables under each of the above items are given below :

Tables 197A—197B

Census of Manufacturing Industries.—This portion presents a summary of statistics of manufacturing industries in India from 1948 onwards as obtained by the Annual Census of Manufactures conducted under the authority of the Industrial Statistics Act, 1942. Detailed figures for 1955 and totals for the years 1948 to 1954, have been given for comparison.

1. *Area and period covered.*—The figures refer to calendar years except in case of sugar industry data for which refer to years ending June. Data for the year 1948 covered all the Part 'A' States but only the following Part 'B' and 'C' States:

(a) PEPSU (Patiala only), (b) Rajasthan (Jodhpur only), (c) Saurashtra (Porbandar only), (d) Travancore-Cochin (Cochin only), (e) Vindhya Pradesh, (f) Ajmer, (g) Delhi and (h) Himachal Pradesh.

The Census for 1949 covered PEPSU in addition but excluded Rajasthan (Jodhpur). The whole of Rajasthan and Kutch came to be included in 1950, Saurashtra in 1951 and Mysore and Travancore-Cochin in 1954.

2. *Classification of Industries.*—Only 29 important industries have been included in the census, of which the Producer Gas Plant industry exists no longer, there being no factory under this industry since 1952. Where a factory is engaged in more than one industry, it has been classified under the industry to which its principal product (by value) belonged.

3. *Establishments covered.*—For the purposes of the Census, only factories registered under the Indian Factories Act, 1948 which employ 20 or more workers on any day and use power are taken into account.

4. *Capital Structure.*—All particulars under this head are as on the 31st December each year or the last closing date of accounts, except in the case of sugar. In the case of sugar industry, the particulars are as on 30th June.

The value of capital items is taken as in the books of the factory on the date to which the particulars relate.

5. *Persons engaged.*—Include all administrative, clerical and technical staff working within the factory area and all those engaged in effecting delivery of the output. Persons employed in retail sales organization and personnel of the central administrative offices outside the factory area have not been included. The persons employed have been divided into two broad groups *viz.* (a) Wage earners and (b) others.

Index of Industrial Production 1951=100

Wage earners are those who perform manual work. They comprise piece-workers and time-workers. Persons solely employed in a clerical or supervisory capacity in a room or place where no manufacturing process is carried on are not classified as workers.

The average daily employment has been worked out by dividing the aggregate number in attendance on all working days by total number of working days during the year. Daily attendance is the aggregate of attendance, in all shifts. Days on which the factory was closed for whatever cause have not been treated as working days.

A comparison of the number of persons employed in the factories covered by the Census with the total number of persons engaged in all factories under the Factories Act, 1948 (*Vide* Section of Labour) indicates that the coverage of the Census (in terms of persons employed) is about 66 per cent.

6. *Wages and salaries*.—Include cost of living or dearness allowances, overtime earnings and other additional payments. Fines, etc., have been deducted.

7. *Cost of Material, etc., fuel consumed*.—Figures refer to the purchase value of raw materials, fuel, electricity, coal, gas, lubricating materials and water consumed in the manufacturing of products and by-products for sale. Only materials *purchased* have been included and those made in the factory have not been accounted for. The purchase value includes transport charges and other incidental charges paid.

8. *Value added by manufacture*.—This denotes the increase in the total value of commodities as calculated by subtracting the cost of materials, supplies, containers, fuel, purchased electric energy, contract work and depreciation of fixed assets from the total value of products including work done by the industry for customers. Depreciation is calculated at rates allowed by Income Tax Authorities for assessing Taxable income.

Tables 198—200

Cotton Mills Production.—Detailed data of Cotton Yarn and Cloth production by variety and by States are presented in this Section. The information is based on statutory returns obtained under Cotton Textile (Control) Order, 1948. All the units of the Organized Cotton Textile Industry, i.e. both Mill and Power Loom Sectors are covered.

Tables 201-202

Electricity.—Figures relate to installed plant capacity, generations and sales by the public utility electric supply undertakings in the Indian Union including Jammu and Kashmir, whether owned by government, local authorities or companies. Military and factory power stations are excluded as also Railway Power Stations (with the sole exception of Chola Power Station, Bombay, which is inter-connected with the Tata power system). Figures for generation include purchases from non-public utilities for public supply. Statewise details are given for their latest year.

Table 201 gives an analysis of installed plant capacity according to type of plant. In the same table the total kilowatt hours generated and sold to ultimate consumers are also stated.

Table 202 gives a general idea of the consumption of electricity for different purposes.

Table 203

Salt—Shows the sources of supply, stocks at the beginning of the year, salt manufactured by Government and otherwise, and total issues of locally manufactured salt (including wastage). Figures of production by unlicensed small scale manufactures are given separately.

Table 204

Production of Selected Industries in India.—The data contained in this table cover 91 industries. Returns are received from producing units on a voluntary basis except in the case of Coal, Sugar, Vegetable oil (Vanaspati), Cotton textiles and Iron & Steel, where the collecting agencies have powers to call for returns.

Figures for organized industries like steel, salt, coal, sugar, cement, cotton textiles, paper, jute, matches, etc., cover the entire production in the country. Jute production figures from January 1949 relate to mills in the membership of Indian Jute Mills Association which account for nearly 95 per cent. of entire output. Figures for other industries represent all organised factories in those industries but small units have been left out. The data in this table relate to production in all states in the Indian Union but figures for Jammu and Kashmir are not available except in the case of woollen Manufactures and Matches. The Installed capacity in every case refers to the close of the period.

Table 205

Interim Index of Industrial Production

Base—1946=100.

Industries covered.—Mining and Manufacturing comprising 20 industries

Coverage.—Based on statistics of selected industries given in table 204.

Weights.—Allotted according to value added by manufacture in the base year obtained from the First Census of Manufactures, India, 1946. In the case of coal, the gross *ex-factory* value at pit-head of the coal mined had been taken in absence of an estimate of value added. The industries and their respective weights were as follows :—

	Industries	Weights
1.	Coal	11.95
2.	Sugar	3.54
3.	Paints and Varnishes	0.61
4.	Cement	0.67
5.	Glass	0.55
6.	Refractories (Ceramics)	0.48
7.	Plywood (Commercial and Tea chests)	0.15
8.	Paper and paper board	1.46
9.	Matches	1.21
10.	Cotton Textiles	43.49
11.	Woollen manufactures	1.38
12.	Jute	16.53
13.	Chemicals	3.10
14.	Non-ferrous metals	2.14

Industries										Weight
15.	Steel	7.16
16.	Bicycles	0.11
17.	Sewing machines	0.02
18.	Electric Lamps	0.04
19.	Electric Fans	0.35
20.	General and Electrical Engineering	5.06
TOTAL										100.00

Computation is on the basis of the weighted arithmetic average with fixed base.

This index has been discontinued since April 1956.

Table 206.

Revised Index of Industrial Production

Base : 1951=100

Coverage.—Based on Statistics of production in Table 204, covering 88 items.

Weights.—weights are allotted to various items in proportion to the estimates of value added by manufacture in the base year. The respective weights for various industries are mentioned in the Table 206.

Computation.—Index is a simple weighted arithmetic mean.

PATENTS AND DESIGNS

Table 207—

The statistics relate to grant of patents and the registration of designs under the Indian Patents and Designs Act, 1911 (II of 1911). They do not include trade marks or copyright in books, pictures, or patent and proprietary medicines which respectively come within the scope of Trade Marks Act, 1940, the Indian Copyright Act, 1914 and the Drugs Act, 1940. The table contains information up to the year 1958.

'Application for a patent' is a request for a grant from the Government which confers on the *grantee*, for a limited term, the exclusive privilege of making, selling and using an "*invention*" and also of authorizing others to do so.

'Patents Sealed' means patents granted and sealed with the seal of the Patent Office on payment of the prescribed fee.

'Extension of the term of patent' means extension beyond the normal term of sixteen years: Such extensions are usually granted for further terms not exceeding five years and, in exceptional circumstances, ten years.

'Lapsed patents' means patents which ceased to be in force owing to non-payment of prescribed fees for continuance.

'Registration of design' confers upon the registered proprietor 'copyright' in the design for the period of registration (initially five years and extendable by a further period of ten years).

(a) Ordinance No. XXVI of 1948 expired on 31st March 1949.

RAILWAYS

For statistical purposes, Indian Railway systems were broadly classified on the following lines up to 1950-51—

CLASS I.—Railways with gross earnings of not less than Rs. 50 lakhs a year.

CLASS II.—Railways with gross earnings of less than Rs. 50 lakhs a year but exceeding Rs. 10 lakhs.

CLASS III.—Railways with gross annual earnings of not more than Rs. 10 lakhs.

From 1951-52, the Indian Railways have been classified as :—

(i) Government Railways and (ii) Non-Government Railways, instead of Class I, II and III.

The regrouping of Indian Railways, carried out during 1951-52 has necessitated corresponding changes in the statistics contained in this Section. With effect from the 14th April, 1951, the M. & S. M., S. I. and Mysore State Railways were integrated into the Southern Railway. With effect from the 5th November, 1951, the G.I.P., N. S., Scindia and Dholpur State Railways were combined to form the Central Railway and the B. B. & C.I., Saurashtra, Jaipur State, Rajasthan and Kutch State Railways to form the Western Railway.

For purposes of statistics, the regrouping has been assumed to have taken place as from 1st April, 1951 and comparative figures for the Central, the Western and the Southern Railways for 1950-51 have been compiled for the regrouped system as a whole by consolidating the figures of the respective constituent units of the new system. For purposes of exhibiting comparative figures for 1950-51 the Scindia, Dholpur, Saurashtra, Jaipur, Rajasthan and Kutch State Railways, which, prior to regrouping, had been included under Class II and Class III Railways, were later included in the group of 'Class I' Railways and omitted from the groups 'Class II' and 'Class III' Railways.

The regrouping of Government Railways was further extended on the 14th April, 1952 with the formation of the Northern, Eastern and North Eastern Railways as follows :—

The Northern Railway by the integration of the former Jodhpur, Bikaner State, and E.P., Railway; Lucknow, Moradabad and Allahabad Divisions of the E.I. Railway; and the Delhi-Rewari-Fazilka Section of the Western Railway.

Eastern Railway by the integration of the former B. N. Railway with the remaining Divisions of the E.I. Railway.

The North Eastern Railway by the integration of the former O.T. and Assam Railways and the Kanpur Achnera Section of the Western Railway.

With effect from August 1, 1955, the old Eastern Railway was bifurcated to the Eastern and South Eastern Railways.

Railways

TOTAL ROUTE MILEAGE

TRAFFIC

NET EARNINGS

The figures relate to Indian Union but are exclusive of East Punjab, Assam and the narrow gauge of E. I. Railways, for the period from 1st April 1947 to 14th August 1947.

Tables 208—214

Route-Mileage of the Railways.—In calculating route mileage, double or treble lines are counted only once.

Gross Earnings and Working Expenses.—Represent total earnings and expenses of railways in an accounting period irrespective of whether the earnings have been realised or expenses paid. Gross earnings include all earnings from passenger traffic, goods traffic, parcels, luggage and other miscellaneous sources of revenue, while working expenses include all expenses incurred for maintenance of structural works, supply of loco power, carriage and wagon stock, ferry steamers and harbours as well as the expenses of traffic departments, general and electric service departments and other miscellaneous expenses.

Train Mileage.—Includes the mileage of trains conveying passengers or goods or both as well as the mileage of empty trains. No deduction is made for departmental trains.

Number of Passengers and Tons carried.—In Table No. 208 the figures represent the number of passengers and weight in tons of goods originating on all Railways, while in Table No. 209 they represent the total number of passengers and total weight in tons of goods carried on individual railways. In the latter case, passengers travelling over two or more railways or two or more gauges of the same railway are treated as having performed two or more journeys. The figures relating to tonnage of goods carried are also recorded in the same manner.

Passenger-Miles and Net Ton-Miles.—The figures under these heads are the real indices of the volume of passenger and goods traffic handled. These are arrived at by multiplying the total number of passengers carried and the total tonnage of goods carried by the respective number of miles over which they are moved.

Accidents.—The figures exclude persons killed or injured in railway workshops.

Source : Ministry of Railways

(1) From 1st January 1949 new classes of passenger travel were introduced. From that date 1st class represents Air Conditioned, 2nd class represents Class I, Inter Class represents Class II and 3rd Class represents Class III. The original classes of passenger traffic were restored from 1-12-49. Class II special was introduced with effect from 1-12-49 and therefore the relevant figures shown under 2nd class for 1949-50 are only for 4 months. With effect from 1st April 1955 the pre-existing First Class was abolished and the Second and Inter classes were re-named as First and Second Classes respectively.

(2) These figures represent the number of passengers and tons of goods originating on all railways and are not the total of figures shown in the later table relating to "Number of Passengers and quantity of goods conveyed and the earnings derived therefrom by the several Railway systems in India which represent total number of passengers and goods carried on individual railways.

(a) Suburban only.

(b) Pre-April 1955.

(c) 1st Class/pre-April 1955 2nd class.

(d) 2nd Class/pre-April 1955 Inter class.

(1) Represent the total number of passengers carried on in individual railways treating passengers travelling over two or more railways or two or more gauges as having performed two or more journeys. These remarks apply to tons carried also.

(a) Formed w.e.f. 1-8-1955 corresponding to ex-B. N. Rly with slight adjustments in the Adra district jurisdiction.

(a) Includes Marignao harbour earnings of :

1952-53	Rs. 29,65,000
1953-54	Rs. 38,82,000
1954-55	Rs. 33,27,000
1955-56	Rs. 22,91,000

MOTOR VEHICLES

Table 215

Number of Motor Vehicles taxed during the last quarter of the year.—
The figures shown in the table may be taken to represent the bulk of the serviceable vehicles.

Tables 216 and 217

*Revenue from State Motor Vehicles Taxes and Fees in India.—*Direct taxation of motor vehicles in India is a State subject. Taxes are levied under various State 'Taxation Acts' and the basis and incidence of taxation vary. Fees are levied under the Motor Vehicles Act, 1939, which is a Central Act; and Motor Vehicles Rules framed by the State Govts. thereunder. These include (a) fees for issue and renewal of driving licences, issue of duplicate licences, tests of competence to drive, and (b) others which include fees for issue of registration certificates and duplicates thereof and issue of permits for operation of transport vehicles. Annual figures are compiled from returns in prescribed forms received from various States in pursuance of a decision taken at a meeting of the Transport Advisory Council held in 1939.

(1) Data upto 1949-50 relate to all Part 'A' States and two part 'C' States viz., Coorg and Delhi; subsequent figures relate to entire Indian Union.

(2) Includes amounts for which details are not available.

(a) Figures for 1953-54 and 1954-55 exclude Assam, West Bengal and PEPSU. These States accounted for nearly 12 per cent of total revenue from Motor Vehicle taxes in 1953-54.

(b) Excludes figures for Andhra & West Bengal.

(c) Provisional.

ROADS

Table 218—

Road Mileage and Expenditure on Extra-Municipal Roads maintained by Public Authorities.—The figures are compiled annually from the returns in the prescribed forms received from various States according to recommendations of the Conference of British Commonwealth Statisticians held in Ottawa in 1935. These statistics relate to extra-municipal roads, *i.e.*, roads outside the area or jurisdiction of a Municipality, Town or City Corporation or other urban body. These roads are maintained by the (a) Public Works Department and Military Engineering Services, and (b) Local Bodies. The roads maintained by the M.E.S. are generally in Cantonments where the M.E.S. are the executing agency for P.W.D. These returns do not include military roads but they include roads, provisionally classed as national highways which have come under the direct control of the Government of India with effect from April 1, 1947.

Table 219—

Central Road Fund Statistics.—The Central Road Fund came into being in 1929-30, on the recommendations of the Jayakar Committee. The fund was built up out of an additional tax of two annas (now 2½ annas) a gallon on motor spirit. A part of the fund (now one-fifth) has been reserved for works of special or all-India importance, the balance being allocated to the States for approved works. The basis of allocation has been determined by the ratio of the consumption of motor spirit in each administrative unit. The fund is non-lapsing, but the credits are subject to the annual vote of the Parliament. The Central Reserve was originally fixed by the Legislature in 1930 at 1/10th of the Central Road Fund. It was subsequently raised to 15 per cent in 1937 and 20 per cent. in 1949. Data relate to the Indian Union.

(1) Unsurfaced (Motorable) roads.

(a)

(b)

(Please see footnotes on page 671 *ante*.)

(g) Includes un-motorable road mileage also.

(h) Road mileage for 1955-56 include mileage of un-motorable roads for several states.

NOTE.—Figures of un-metalled roads (un-motorable) are not generally shown in the above statement for the years 1955-56 and 1956-57. The statistics of such roads are now separately being maintained by the C.D. and Co-operation Ministry.

SHIPPING

Tables 220 to 227:—

Indian shipping statistics are confined to foreign and coastal traffic only, data for inland shipping being far too meagre at present. Numbers of ships include their repeated voyages, *i.e.*, if a ship performs more than one voyage, it is treated as more than one vessel. Tonnage recorded except in table 225 is net tonnage, *i.e.*, volume of enclosed spaces of vessels less crew space, engine room and other space not used for cargo; and the unit of measurement is a ton of 100 cu. ft. Tonnage recorded in table 225 is gross registered tonnage.

Figures for sailing vessels include only square rigged type while those which are not square rigged are taken as country craft.

Vessels in foreign trade are recorded as entering on the voyage inwards at the first port and as clearing on the voyage outwards at the last port at which cargo is laden. If on their inward voyage, they enter a port in India in ballast or to discharge a part of their cargo and then proceed to other ports in India, their clearances and entries after the first port are recorded in the coasting trade. Similarly if vessels on the voyage outwards load with part cargo for a foreign port and part for some other port or ports in India, they are recorded at the first port of departure as cleared in the coasting trade and such vessels are again recorded as cleared in foreign trade at the last Indian Port.

CIVIL AVIATION

Table 228

The statistics relate to all traffic (both revenue and non-revenue loads), carried by Indian airlines on their scheduled services. Data for Internal and International Services have been shown separately.

Further details are as below :—

Hours flown—These figures represent the total of the number of hours flown by individual planes

Miles flown—These figures represent the total of miles flown by individual planes

Capacity ton-miles.—The figures are obtained by multiplying the total tonnage offered to the public for air transportation of passengers, freights and mails by the mileage flown.

Passengers, freight, mails and newspaper carried.—The number of passengers carried represents the total number of passengers carried on different air-routes treating passenger; travelling by planes for two or more routes as having performed two or more journeys. The figures relating to the weight of freight and mails carried are also derived in the same manner.

Passenger-miles.—The figures are obtained by adding up the mileage travelled by each passenger.

Load-ton-miles.—Represent aggregates based on the product of the tonnage of freight or mails as the case may be, and the distance through which the load was carried. The figures relating to total load-ton-miles take into account all kinds of traffic, including passengers.

POSTS AND TELEGRAPHS

Tables 229 to 243.

This section presents financial and operating data relating to the different branches of the Posts and Telegraphs Department including the Post Office Savings Bank. They comprise statistics of the number of offices and the mileage of telegraph lines as well as the volume of traffic handled by those offices and/or sent over the wires. It is possible with these data to make a study of the growth of traffic against the background of expansion of facilities and *vice versa*.

Receipts under postage (table 234) include both sale of stamps and postage paid in cash, *e.g.*,—(i) postage prepaid in cash in Presidency post offices, (ii) credits afforded in the schedule of customs duty on account of postal redirection fees, and insurance fees realised on delivery of inward foreign parcels, (iii) charges for resetting franking machines and (iv) cash realised for unpaid or insufficiently paid postal articles. Statistics relating to Telegraph offices (table 237) maintained by the department independently or in conjunction with another office or by a licensed administrator have been included. Statistics of registered articles are actuals. In the case of unregistered postal traffic (letters, postcards, parcels, packets and newspapers) it is not possible to maintain day to-day statistics of the *actual* number of articles. Unregistered traffic is, therefore, estimated from a count of the articles in all post offices in India taken during the one week in the busy season and one week in the slack season.

Radio telegraphs (table 241) includes only messages sent to ships from coastal offices.

Ministry of Transport and Communications :

(a) From the year 1951-52, the Revenue Receipts of telephone districts Bombay, Madras and Calcutta are merged with Miscellaneous Revenue.

OVERSEAS COMMUNICATIONS SERVICE

Tables 244 to 248

This Service, working as a separate Department under the Ministry of Communications, is responsible for Telegraph, Telephone, Radiophoto and Multi-Address Broadcast Services between India and Foreign countries. The service was nationalised with effect from the 1st January, 1947 prior to which date it was being worked by a private company—The Indian Radio and Cable Communications Co. Ltd., following services being taken over from the Company at the time of Nationalisation :—

- (a) Submarine Cable Telegraph Services—connecting (i) Bombay to London *via* Aden, Port Sudan, Alexandria, etc. for the European traffic ; (ii) Madras with Penang, Singapore, Hong Kong, etc. for the East Asian traffic ; (iii) Bombay to Zanzibar *via* Aden for East and South African traffic.
- (b) Wireless Telegraph Services—between (i) Bombay and London, Melbourne, Shanghai, New York (through two direct services operated by Messrs. Mackay Radio Telegraph Co., and Radio Corporation of America at the American end) ; (ii) New Delhi and London.
- (c) Radio Telephone Service—between Bombay and London.

2. Considerable progress has been made in India's foreign communications, as will be seen from the services operated on 31st March 1959, as given below :—

- (a) *Direct Wireless Telegraph Services.*—(i) Bombay to Afghanistan, Egypt, France, Germany, Hanoi, Indonesia, Iran, Italy, Japan, Saigon, Switzerland, Thailand, United Kingdom and U. S. A. (2 circuits) ; (ii) Calcutta to Australia, Burma, United Kingdom ; and (iii) New Delhi to Moscow, Peking, Poland, Shanghai, United Kingdom and Yugoslavia.
- (b) *Direct Radio Telephone Services.*—(i) Bombay to Aden, Bahrain, Burma, East Africa, Egypt, Ethiopia, Hongkong, Indonesia, Iran, Japan, Malaya, Poland, Saudi Arabia, Switzerland and United Kingdom ; (ii) Calcutta to Australia, Germany, Saigon, United Kingdom and (iii) New Delhi to China (Sanghai), France, Italy, Moscow, United Kingdom.
- (c) *Direct Radio Photo Services.*—(i) Bombay to Japan, United Kingdom, U.S.A. ; and (ii) New Delhi to China, France, Poland, United Kingdom, and U.S.S.R. ; (iii) Calcutta to Germany and U.K.
- (d) *Multi-address Press Broadcasts.*—Delhi to Ankara, Baghdad, Bangkok, Beirut, Berne, Bonn, Brussels, Cairo, Colombo, Consula Bodies at Rangoon, Djakarta, Kabul, Khatmandu, London, Moscow, Nairobi, Paris, Peking, Prague, Rome, Singapore, Sydney, Teheran, The Hague, News cast Tokyo ; Buenos Aires and Rio de Janeiro.
- (e) *Newscast Services for the press*—from Bombay to Khatmandu, Tokyo and Kabul.

(f) A new type of radio-telegraph service was introduced during the year 1957-58 viz. leased channel for private customers on rental basis. These channels between India and the United Kingdom (London), two from Calcutta and one from Bombay, have been made available to the customers. This facility provides direct means of communications between the parties.

(g) *Switched Radio-telephone Services* : (i) *via London* to Algeria, Argentina, Asmara, Austria, Barbados, Belgium, Bermuda, Braz, Canada, (including Yukon Province and Goose Bay Labrador), Ceuta, Costa Rica, Cuba, Czechoslovakia, Denmark, Finland, Ghana, Gibraltar, Greece, Guatemala, Hawaii, Honduras, Hungary, Iceland, Irish Republic, Israel, Lebanon, Luxembourg, Mexico, Morocco, Netherlands, Newfoundland, Nicaragua, Norway, Panama, Rhodesia, Spain, South Africa, South West Africa, Sudan, Sweden, Tangier, Tunisia, United States of America, Vatican City and Yugoslavia.

(ii) *Via London to the following Ocean Liners*: America., Athlone Castle, Capetown Castle, Caronia, Corinthia, Constitution, Edinburgh Castle, Empress of England, Empress of Britain, Eastriver, Israel, Ivernia, Independence, Maasdam, Mauretania, Nevasa, Nieuw Amsterdam, Olympia Elir, Orion, Orcaes, Oronsay, Orsova Oxfordshire, Oslof-Jord, Pretoria Castle, Queen of Bermuda, Queen Elizabeth, Queen Marry, Reina (Del Mar), Rijndam, Stirling Castle, Sylvania, Saxonia, United States and Zion.

(iii) *Via Berne* to Yugoslavia.

(iv) *Via Bahrein* to Muscat, Doha and Kuwait.

(v) *Via Egypt* to Sudan.

(vi) *Via Australia* to New Zealand.

(vii) *Via Ethiopia* to Asmara.

(viii) *Via Japan* to Ryukyu.

(h) *Switched Radio photo Services via London* to Australia, Belgium, Canada, Czechoslovakia, Denmark, Egypt, Finland, Ghana, Greece, Italy, Kingston Jamaica, Norway, Portugal, Sweden, Switzerland and Union of South Africa and Yugoslavia.

3. Through the above services, India's external communications are handled and the statistics of traffic and revenue of different services are as shown separately.

Merchandise Marks

Table 249:—

The data refer to the detentions made and penalties imposed under the Indian Merchandise Marks Act, 1889 and relate to the ports of Bombay, Calcutta, Cochin, Delhi (Airport) and Madras. Pondicherry is included from 1954-55. Figures prior to 1946-47 include the port of Karachi and relate to Undivided India.

Counterfeit Trade mark.—Means a tampered, altered or effaced 'trade mark'. A 'trade mark' under the Merchandise Marks Act has the meaning assigned to a "registered trade mark" as defined in the Table Marks Act, 1940 or a mark used to indicate a connection between the goods and a person having the right as a proprietor to use the mark.

False Trade description.—A trade description which, as applied to goods, is untrue in a material respect. It includes, every alteration of a trade description, whether by way of addition, effacement or otherwise 'trade description' means any description, statement of other indication direct or indirect—

- (a) as to the number, quantity, measure, gauge or weight of any goods, or
- (b) as to the place or time of production, or
- (c) as to the mode of manufacturing any goods, or composition thereof or
- (d) as to any goods being the subject of an existing patent, privilege or copyright.

Use of any mark which, according to the custom of the trade, is commonly taken to be an indication of any of the above matters is also a trade description within the meaning of this Act.

Place of origin.—It is also obligatory under the Act that the goods should bear an indication of the country or place in which they were made or produced. Non description or false description of the place of origin constitute an offence under the Act. This does not apply to goods imported for the purpose of re-export.

Stamping of piece-goods, cotton yarn and thread.—Under the requirements of the Act, all piece-goods should be conspicuously stamped in English numerals with the real length in standard yards and fraction thereof on each piece. Cotton yarn sold in bundles and cotton thread for sewing, darning, crochet or handicraft should also be conspicuously marked with weight and count of the yarn contained in each bundle and with the length or weight of the thread contained in each unit. Each piece-goods, each bundle of yarn and each unit of thread should also be conspicuously marked with the name of the manufacturer or the wholesale purchaser in India of the goods.

Goods sold for export and those produced in establishments employing not more than 10 persons (not more than 20 persons in case of co-operative societies) are exempted from the provisions of this Act.

- (a) For the year 1949-50 besides the figures furnished above there were 80 cases of detention in respect of infringement of the provisions of Cotton Yarn and Cotton Thread Marking Rules of 1948-49 which came into effect from 1-4-49. Of the 80 cases, one was released with fine and the rest without fine.

- (b) 13 cases were under action.

NOTE.—Figures for Delhi included from the year 1951-52 and for Pondicherry from 1954-55.

TRADE

(A) FOREIGN TRADE

IMPORTS

Tables 250 to 252, 255, 256, 258, and 260—

Import figures generally show the trade as declared by importers in the bills of entry (applications for clearance) and as checked by customs officials.

Goods entered for storage in bonded warehouses and afterwards exported therefrom are included under 'imports' and 're-exports'. Trans-shipment trade is not recognised for the purpose of Indian trade returns and is thus not included here.

Trade of foreign countries on the border of India passing in transit through Indian ports on through bills of lading from and to overseas countries is included under 'imports' and 're-exports' respectively.* The transit trade of Pakistan has, however, been excluded from the general import and re-export with effect from April, 1952.

Imports of passengers' baggage are not included unless they are dutiable. All dutiable articles imported from foreign countries by parcel or letter post are included.

EXPORTS AND RE-EXPORTS

Tables 250, 251, 253 to 255, 257, 259, and 260—

Export figures represent the trade as declared in the manifests of vessel cleared which have been received and scrutinized with reports of notice of short shipment up to the last working day of the month or as near to that as is practicable but not earlier than 26th of the month. From the year 1951-52, however, a revised procedure for the registration of export trade statistics was adopted. The export trade statistics are now being compiled on the basis of trade as declared in the shipping bills passed up to the last working day of the month with necessary adjustments on account of short shipments. The figures of exports relate to Indian merchandise alone as distinct from exports of foreign merchandise which are classed as re-exports.

*Total value of such trade is also shown separately in the *Monthly Accounts relating to the Foreign Trade and Navigation of India* from April 1949 to December 1956 and thereafter in the *Supplement to Monthly Statistics of the Foreign Trade of India*.

All articles despatched to foreign countries by parcel post are included but the contents of foreign letters despatched are not registered.

CLASSIFICATION OF TRADE BY COUNTRIES

Tables 252 to 254, 258 and 259—

Imports are classified with reference to the countries whence they were consigned to India and not with reference to the countries whence they were shipped direct to India. The country of consignment is defined as that from which the goods have come whether by land and sea or by sea only or by air, without interruption of transit save in the course of transshipment or transfer from one means of conveyance to another. Thus the countries whence goods are consigned are not in all cases the countries of actual origin of goods since goods produced in one country may be purchased by a firm in another country and thence despatched after an interval to India.

Exports are credited to the country of final destination as declared by exporters in the shipping bills whether that country possesses a sea-port or not. The country of final destination is defined as that to which goods exported from India are intended to pass whether by sea and land or by sea only or by air without interruption of transit, save in the course of transshipment or transfer from one means of conveyance to another.

Simultaneously with the adoption of Standard International Trade Classification since January 1957, there has been a change in the statistical accounting year for the foreign trade statistics of India. They were previously published on a financial year (Apr.-March) basis but from January 1957, are compiled on a calendar year basis.

The figures are those declared by importers and exporters in entry and shipping bills. The value of goods represents (i) the wholesale cash price less trade discount for which goods of the like kind and quality are sold or are capable of being sold at the time and place of importation or exportation, as the case may be, without any abatement or deduction whatever, except in the case of goods imported of the amount of duties payable on the importation thereof; or (ii) where such price is not ascertainable the cost at which the goods of the like and quality could be delivered at such place without any abatement or deduction except as aforesaid. Import valuation in practice corresponds to c.i.f. method, but export valuation was prior to April 1951, not strictly on f.o.b. basis as it did not take into account export duties and such items as dock charges, cost of transport, etc., up to the vessel. With effect from April 1951, however, the basis of export valuation has been changed so as to conform strictly to f.o.b. basis inclusive of export duty and/or cess where leviable.

CURRENCY AREAS

Table 255—The following classification has been adopted from the year 1956-57.

Dollar Area :—United States of America, Canada (including Newfoundland and Labrador), Cuba, Haiti, Dominican Republic, Porto Rico, Virgin Islands of the United States, Mexico, Guatemala, Honduras (not British), Salvador, Nicaragua, Costa Rica, Columbia, Republic of Panama, Panama Canal Zone, Venezuela, Ecuador, Bolivia, Hawaii, Philippines, Liberia and American Samoa.

Sterling Area :—All Commonwealth Countries (excluding Canada) together with Irish Republic, Iceland, Jordan, Muscat and Oman, Iraq and Burma.

Other Soft Currency Area.—All other countries.

Currency area figures include the latest adjustments and therefore do not always tally with the preceding figures.

TREASURE

Tables 258 and 259

Imports and exports of gold were recorded separately under 'treasure' as distinct from 'merchandise' till December 1956. From January 1957 silver is included in merchandise trade while gold continues to be recorded under treasure. The value of gold represents the market value at the time and place of import or export, as the case may be.

INDEX NUMBERS OF DECLARED VALUES AND QUANTUM OF TRADE

Table 259.

For figures up to 1948-49, the original base is the year ending March 1928 but converted to the year ending March 1939. Owing to far-reaching changes in the pattern of trade as well as in the coverage of the statistics, especially after Partition, a new series calculated with reference to year ending March 1949 as base, was introduced with effect from 1949-50. Re-export trade, which was excluded from the old series was included in the export trade for the purpose of the index. To fit in with the current pattern of India's foreign trade, a revised series with 1952-53 as base has now been introduced with effect from 1953-54. Re-export trade has been excluded from the Export Index. The revised series covers trade by all routes *i.e.* by sea, air and land.

Declared Values

Index numbers of declared values are constructed so as to show the changes in the unit values of articles imported or exported.

The method of calculation consists in revaluing the trade of the current period at the prices prevailing in the base period and then in comparing the recorded value of the current period with the corresponding value recalculated on the above basis. Thus, if the price and quantity of any article in the base period be denoted by p_0 and q_0 and the corresponding figures for the period under consideration by p_n and q_n the price index (P_n) may be defined symbolically as :

$$P_n = \frac{\sum p_n q_n}{\sum p_0 q_n} \times 100$$

In actual practice the calculation has to be based on a selected number of items, *i.e.*, those for which both quantity and value figures are recorded in the trade returns. In the case of the old series (1938-39=100), it was assumed that the average price changes of the omitted articles (*i.e.*, those directly not made use of in the calculation) were the same as those of the selected articles. But in the series (base 1948-49=100), the omitted items were assumed to follow the movements of related articles. The total numbers of imported and exported items (or articles) taken into account in the calculation of the old series were 161 and 76 respectively having a coverage of 78 per cent of the import trade and 93 per cent of the export trade during 1927-28. The items directly taken into account in the calculation of the second series numbered 216 for imports and 115 for exports (including re-exports), with a coverage of over 69 per cent of the import trade and 93 per cent of the total export and re-export trade during the base year 1948-49. The commodities included in the revised index (1952-53=100) account for 92% of the total trade of India by sea, air and land in respect of export trade and 73% of the import trade.

Quantum of Trade

Quantum indices are designed to show the movements in the aggregate value of imports and exports after elimination of the effect of price changes. The general quantum index (Q_n) can be defined as below :—

$$Q_n = 100 \times \frac{\sum p_0 q_n}{\sum p_0 q_0}$$

where p_0 , q_0 and q_n have the same meaning as given earlier under "Declared Values". It is, however, derived straightaway from the formula

$$Q_n = 100 \times \left(\frac{V_n}{V_0} \times \frac{P_n}{100} \right)$$

where V_0 and V_n represent the grand totals of the recorded value of the trade and P_n the general average unit value index already determined. In calculating the *group* indices, V_0 and V_n represent group totals and not the grand total value of trade.

By Sea, Air and Land

The figures represent trade with foreign countries both on private and Government accounts, registered at Indian sea and air ports, including also land frontier trade with Pakistan, Afghanistan, Iran and Burma as registered at the land customs lines.

The foreign trade of Kutch was first included in June 1948, of Travancore, Saurashtra and Okha in April 1949 and that of Delhi Air Port from April 1950.

From 1949-50, goods imported or exported for use of the Defence Services or for Defence purposes are included but recording is still incomplete.

OVERALL BALANCE OF TRADE

Table 261.

From April 1948 total values of foreign trade of India by all routes (*i.e.*, sea, air and land) have been taken into account for purpose of calculating the balance of trade. Balance of trade in treasures is in gold and silver only upto December 1956 and gold only thereafter since trade in silver is included under merchandise.

LAND FRONTIER TRADE

Tables 262 and 263.

This portion deals with the trade with Tibet, Nepal, Sikkim and Bhutan as recorded at certain railway stations adjacent to the land frontier routes in the absence of a customs barrier. Only quantities are shown. Values are not recorded at present.

TRADE

(B) COASTING TRADE

Tables 264 and 265

Coasting trade statistics represent the trade registered at the ports in States (old Provinces), that is, the trade between one State (old Province) on the one side and all other States (old Provinces and former Indian States, such as Kutch, Travancore etc.) *plus* certain other ports on the Indian coast (*e.g.*, French Ports, Goa, etc.) on the other. The trade among ports within the same State has not been included into the table presented here. Cochin Port which was a part of Madras block prior to April 1951 has from that date been constituted into a separate block.

Prior to April, 1957, the Indian Coasting Trade was recorded according to the following Maritime Blocks:—

(1) West Bengal, (2) Orissa, (3) Madras, (4) Travancore-Cochin (5) Cochin Port, (6) Bombay, and (7) Saurashtra, Okha and Kutch.

Consequent upon the reorganisation of the States, the following Maritime Blocks each of which corresponds to a Maritime State or Union territory, have been adopted from April, 1957 :—

(1) West Bengal, (2) Orissa, (3) Andhra Pradesh, (4) Madras, (5) Kerala, (6) Mysore, (7) Bombay, (8) Andaman and Nicobar Islands, and (9) Laccadive, Minicoy and Amindivi Islands.

For the purposes of trade and tariff, Pakistan was declared to be a foreign country with effect from 1st March 1948, and hence the coasting trade of India with Pakistan ports is excluded from that date.

The figures show generally the trade as declared in the shipping documents duly scrutinised and passed through the custom houses. The term 'Indian merchandise' comprises all goods that are of the growth produce or manufacture of India. Indian merchandise is distinguished from foreign merchandise in the declaration of importers or exporters made in the bills of entry or shipping bills from which the trade statistics are compiled. Passengers' baggage, postal transactions and merchandise transhipped at Custom ports are excluded from the scope of these statistics. Imports and exports of treasure which include gold and silver (bullion and coin) only are recorded separately and are not included in the figures of merchandise. From 1948-49, the distinction between private merchandise and Government stores has been abolished and combined figures of trade under both these categories are published.

In the values of articles imported or exported as recorded in the coasting trade, customs and excise duties previously paid are included.

The year refers to the period of twelve months, April to March

TRADE.

(C) INLAND TRADE

Table 266

Nature and Scope.—Inland trade statistics represent only the movement of the trade, by railways and steamer services, into and from a State (old Province or Indian State) taken as a whole or a chief port or ports, the trade of which is registered separately from that of the State (old Province or Indian State) in which such port or ports may be situated. Movement of the trade by other means (*e.g.*, road, air, country boats, etc.) is thus excluded from the scope of these statistics.

Method of Registration.—The statistics are recorded on 'import basis'. According to the arrangement in force, each of the railways register such traffic as is received at stations on its line within a particular trade block from other trade blocks, without taking into account the traffic *en route* to a destination on a different railway system or to a station on the same system but located outside that trade block. With a view to reducing the number of returns, imports into the station on the minor railways are recorded by the major railways connecting them.

For river-borne trade, the following traffic is recorded by the agents of the various steamer services concerned : (i) between Calcutta on one hand and Assam, West Bengal (*excluding* Calcutta), Bihar and Uttar Pradesh on the other, (ii) between West Bengal (*excluding* Calcutta) on one side and Assam, Bihar and Uttar Pradesh on the other, (iii) between Assam on one hand and Bihar and Uttar Pradesh on the other hand (iv) between Bihar and Uttar Pradesh.

The traffic carried partly by rail and partly by river, when booked through and carried by steamers running in connection with railways, is to be recorded generally by the railway administration concerned.

Articles and unit of measurement.—The trade in certain staple articles only is recorded in the standard mds. of 82 $\frac{2}{7}$ lbs. The weight recorded is the net weight, *i.e.*, the gross weight entered in the invoices less certain fixed percentages which have been taken to represent the weight of packings, etc. Values are not recorded. Figures of oilseeds represent the trade in the following varieties (i) castor, (ii) cotton, (iii) groundnuts, (iv) linseed, (v) rape and mustard and (vi) til or jinjili. Cotton piece-goods include both Indian and foreign cloth. Jute raw, includes both loose and pucca bales. Raw cotton figures do not make a distinction between ginned or unginned.

Period covered.—Figures relate generally to the financial year, April to March ; but in the case of cotton raw, figures relate to the cotton year September to August.

Trade Blocks.—Prior to April 1955, there were only 20 Trade Blocks. The list had to be revised because of the separation of Andhra from Madras, the *de facto* transfer of Pondicherry and Karikal from French to Indian Administration and the need felt for separate figures of the trade of each State. India has now been divided, for purposes of internal trade, into 36 Trade Blocks with effect from April, 1955. The figures for the year 1957-58 are shown in details whereas only annual totals are shown for the earlier years.

Source : Director General of Commercial Intelligence and Statistics,
Ministry of Commerce and Industry :

Note—Consequent upon the reorganisation of the states, there has been a revision in the Maritime Blocks with effect from April, 1957. Hence the figures from 1957-58 are not comparable with the earlier data.

Please see further details in introductory notes.

Balance of Payments

CURRENT ACCOUNT

CAPITAL ACCOUNT

PROVISIONAL

C.S.D. 36, 202/4-58

BALANCE OF PAYMENTS

The balance of payments is a record of economic transactions of the residents of a country with the rest of the world on account of goods exported and imported, services rendered and received and transfers of capital. Residents cover nationals as well as non-nationals residing in the country. Foreign students, tourists, foreign diplomatic officers and international institutions are not considered to be residents but diplomatic officers and armed forces of the country, stationed abroad, are treated as residents notwithstanding their physical location.

India's balance of payment statistics presented in this section are derived for the most part from exchange control records. The figures relate to Indian Union and include Indo-Pakistan transactions also.

Table 267—

Current Account.—Economic transactions that enter the current account of the balance of payments are of the following types. A surplus on current account leads to an acquisition of assets or repayment of debts previously contracted and a deficit involves withdrawal of previously accumulated assets or is met by borrowings.

Merchandise.—The figures include estimates of unrecorded imports paid with Indian currency notes but exclude transactions under Government barter deals. Imports are inclusive of insurance and freight although these two elements come, strictly speaking, under the category of services. Exports are f.o.b. Gold transactions are recorded separately under the head "non-monetary gold".

Transportation Services.—Receipts include charges, etc., met by foreign ships in Indian ports, while payments cover operating expenses abroad of Indian Steamship Companies and some freight payments.

Investment income.—Receipts include interest and discount on the investments of the Reserve Bank of India.

Government Services not included elsewhere.—The payment figures represent disbursements of the Government such as those for the upkeep of its offices abroad as also contributions to international organisations.

Miscellaneous (Services).—This item covers, in the main, receipts and payments for services such as those for agency services and film rentals and maintenance of estates.

Donations.—These are mainly unilateral transfers like gifts, maintenance allowances, family remittances and remittances received by missionaries. Also include aid received under Colombo Plan and Indo-U.S. Technical Co-operation Agreement.

Errors and Omissions.—This is a reconciliation entry to balance the difference in the total debits and credits. These differences arise due to difference in timings between the two arms of a transaction or their coverage.

Table 268—

Current account currency area-wise.—This table provides data on the regional aspect of the current account. The areawise division of current transactions shown is based on definitions of these areas current during the various periods concerned as detailed below:

Sterling Area.—All Commonwealth countries (*excluding* Canada and Newfoundland) together with Burma, Iraq, Jordan, Libya, Muscat & Oman, Irish Republic and Iceland.

Dollar Area.—Covering United States of America, Canada (*including* Newfoundland), Cuba, Haiti, Dominican Republic, Porto Rico, Virgin Islands of the United States, Mexico, Guatemala, Honduras (not British), Salvador, Nicaragua, Costa Rica, Colombia, Republic of Panama, Panama Canal Zone, Venezuela, Ecuador, Bolivia, Hawaii, Philippines, Liberia, and American Samoa. Figures for 1951 and 1952 refer to "Hard Currency Area" comprising the United States of America, other American Account Countries, Canada, Liberia, Argentina and Japan. The last two ceased to be hard currency countries from January 1951 and October 1951, respectively.

Table 269—

Capital Account.—This account indicates how the transactions under the current account affect the country's investment position abroad. Explanations of the various categories included are given below :

1. (i) *Private long-term Capital.*—Transactions covered are mainly cash transfers and do not include investments in form of goods brought from abroad nor the re-invested earnings of foreign controlled companies in India.

(ii) *Private short-term Capital.*—Mainly includes seasonal capital received from abroad for financing foreign owned plantations and net charges in the short term indebtedness or claims abroad of business institutions.

2. (i) *Official and Banking: Long-term.*—Comprises (a) *Loans*—drawings on IBRD and other foreign loans and receipts under Technical Cooperation Agreements.

(b) *Portfolio Securities.*—Repatriation of sterling stock and movement of rupee security held by foreigners as also changes in long-term sterling securities.

(c) *Amortisation.*—Capital withdrawal and disbursements under Railway and Pension annuities as also repayment of IBRD loans by India and partition debt by Burma.

(d) *Others.*—Covering transaction under partition obligations to Pakistan and other contractual repayments.

(ii) *Official and Banking: Short-term.*—Transactions covered are (a) net movement in foreign assets of the R.B.I., the Government and Commercial Banks including changes in India's liability to IMF arising out of purchase of dollars against rupees or repurchase of rupees and (b) net movement in short-term liabilities of the RBI and the Commercial Banks to foreign official and Banking Institutions.

(a) Primary Estimates.

By Industrial Origin AT CURRENT PRICES

GOVERNMENT ADMINISTRATION
COMMUNICATIONS
SMALL ENTERPRISES

INCOME PER CAPITA

AT CURRENT PRICES AT 1945-49 PRICES

NATIONAL INCOME

The tables presented in this section give the estimates of national income of India, obtained by applying inventory method to as many sectors of the economy as possible, the income method being followed for the remaining sectors. The area and population covered by the estimates pertain to the whole of Indian Union, including Jammu and Kashmir.

Tables 270 and 271.

The net domestic product at factor cost by industrial origin is estimated for the sectors grouped under :—

- (a) Agriculture.
- (b) Mining, manufacturing and small enterprises
- (c) Commerce, transport and communications.
- (d) Other services.

Tables 272.

This table gives the shares of Government in the net domestic product and national expenditure. Estimates of gross capital formation on Government account have also been included.

Tables 273 and 274.

These tables give the relationship between national income and some other main aggregates of income and expenditure.

ELECTORAL STATISTICS

Under the terms of the Indian Constitution, there shall be a Parliament for the Union consisting of the President and two Houses to be known respectively as the Council of States (Rajya Sabha) and the House of the People (Lok Sabha). Similarly in each State, there shall be a legislature consisting of either one House known as the Legislative Assembly (Vidhan Sabha) or two houses known as the Legislative Council (Vidhan Parishad) and the Legislative Assembly (Vidhan Sabha).

In the following tables an attempt has been made to bring out broadly the salient characteristics of the electorate in the country. For this, the number of voters, constituencies, seats allotted and votes polled for each State for the purpose of representation in the Parliament as also in the State Legislatures have been given.

Tables 275-276 :—

Election for House of People and Legislative Assemblies.

In these tables are shown the number of voters and constituencies in each State for the purpose of election to the House of the People and the Legislative Assemblies. The election to the House of the People and to the Legislative Assembly of every State shall be on the basis of adult suffrage ; that is to say, every person who is a citizen of India and has attained the age of 21 years, if not otherwise disqualified, shall be entitled to be a voter at any such elections. For the purpose of election, the States have been grouped or formed into territorial constituencies with single or double member representation and the number of seats to be allotted for each such constituency has been determined. Each voter has one or more votes according to the nature of his constituency.

In the two tables, Col. 4 shows total no. of electors (voters) in all constituencies, whereas Col. 5 shows no. of votes in contested constituencies only. The percentage of votes polled to total votes in contested constituencies is shown in Col. 8. This indicates the extent to which the voters exercised their franchise. The difference between "votes polled" and "valid votes polled" shows that a number of votes polled were either wrongly polled or rejected.

The Legislative Assembly of each State is to be composed of members chosen by direct election. The total number of members in the Legislative Assembly of a State shall not in any case be more than 500 or less than 60. The strength of the electoral college in the Union Territories is laid down in the provisions of the Representation of the People Act, 1950.

Tables 277 :—

Representation in Legislative Councils together with Constituencies for the purpose.

Representation in the Legislative Council of each State, where there is such a Council will be confined to Local Authorities, University Graduates and Teachers, Nominees of the Governor and elected representatives of the Legislative Assembly. This table shows the proposed strength of this Council in each State together with the number of constituencies for the purpose of elections.

	(vii) exceeds Rs. 10 a thousand but does not exceed Rs. 15 a thousand.	Do.	2.75
	(viii) exceeds Rs. 7.50 nP. a thousand but does not exceed Rs. 10 a thousand.	Do.	1.50
	(ix) does not exceed Rs. 7.50 nP. thousand	Do.	1.00
10. TYRES—			
	"Tyre" means a pneumatic tyre in the manufacture of which rubber is used and includes the inner tube and the outer cover of such a tyre.		
	(1) Tyres for motor vehicles	30 per cent <i>ad valorem</i> .	
	(2) All other tyres	15 per cent <i>ad valorem</i>	
11. VEGETABLE PRODUCTS—			
	"Vegetable product" means any vegetable oil or fat which whether by itself or in admixture with any other substance, has by hydrogenation or by any other process been hardened for human consumption.	Cwt.	7.00
12. COTTON FABRICS—			
	"Cotton fabrics" means all varieties of fabrics manufactured either wholly or partly from cotton and include dhooties, sarees, chadars, bed-sheets, bed-spreads, counterpanes and table-cloths, but do not include any such fabrics—		
	(a) if it contains 40 per cent. or more by weight of wool.		
	(b) if it contains 60 per cent. or more by weight of rayon or artificial silk, or		
	(c) If manufactured on a handloom.		Rs. A. P.
	(1) Cotton fabrics, superfine—		
	that is to say, fabrics in which the average count of yarn is 48s or more.	Sq. Yd.	0—2—6
	(2) Cotton fabrics, fine—		
	that is to say, fabrics in which the average count of yard is 35s or more but is less than 48s.	Do.	0—1—6
	(3) Cotton fabrics, medium—		
	that is to say, fabric in which the average count of yard is 17s or more but less than 35s.	Do.	0—1—0
	(4) Cotton fabrics, coarse—		
	that is to say, fabrics in which the average count of yard is less than 17s—		
	(a) Dhooties and sarees	Do.	0—0—6
	(b) all other sorts	Do.	0—1—0

Item no. 1	Description of goods 2	Rate of duty 3
12A. RAYON OR ARTIFICIAL SILK FABRICS (1)—		
	"Rayon or Artificial silk fabrics" include all varieties of fabrics manufactured either wholly or partly from rayon or artificial silk, but do not include any such fabric—	Unit Sq. Yd. Rs. A. P. 0—0—6
	(i) if it contains 40 per cent. or more by weight of wool;	
	(ii) if it contains cotton and less than 60 per cent. by weight of rayon or artificial silk;	
	(iii) if it contains no cotton and less than 40 per cent. by weight of wool and less than 40 per cent. by weight of rayon or artificial silk;	
	(iv) if manufactured on a handloom.	
12B WOOLLEN FABRICS (2)—		
	"Woollen fabrics" mean all varieties of fabrics manufactured wholly of wool or which contain 40 per cent. or more by weight of wool and include blankets, lohis, rugs and shawls, but do not include any such fabric.—	Six and a quarter per cent. <i>ad valorem</i> .
	(i) if manufactured on a handloom;	
	(ii) if manufactured by or on behalf of the same person in one or more factories in which less than five power looms in all installed.	
13. COFFEE CURED(3)—		
	"Coffee" means the seed of the coffee tree (coffee), whether with or without husk, whether cured or uncured but does not include the seed while still attached to the tree.	One lb. 0—3—0
14. TEA (3)—		
	"Tea" includes all varieties of the product known commercially as tea and also includes green tea.	
	(1) Packaged tea, that is to say, tea packed in any kind of container containing not more than 60 lbs. net of tea—	One lb. 0—3—0
	(i) if, before, being so packed, duty has been paid thereon under sub-item (2) of this Item.	Do. Rs. nP. 0·25
	(ii) if, before being packed duty has not been paid thereon under sub-item (2) of this Item.	Do. Rs. A. P. 0—1—0
	(2) Tea not otherwise specified	One ton Rs. nP. 24·00
15. CEMENT (1)—		
	All varieties	
16. SOAP(1)—		
	"Soap" means all varieties of the product known commercially as soap—	
	I. Soap, in or relation to the manufacture of which any process has been carried on with the aid of power or of steam for heating—	
	(1) Soap household and laundry—	
	(i) plain bars of not less than one pound in weight	Cwt. 5·25
	(ii) other sorts	Do. Rs. A. P. 6—2—0
	(2) Soap, toilet	Do. Rs. nP. 14·00
	(3) Soap, other than household and laundry or toilet	Do. 14·00
	II. Soap, in or in relation to the manufacture of which no process has been carried on with the aid of power or of steam for heating—	
	(i) Plain bars of not less than one pound in weight	Do. 4·50
	(ii) Other sorts	Do. 5·25

(3) These items were inserted by the Indian Finance Act, 1944.

APPENDIX A (i)

RATES OF UNION EXCISE DUTIES—*contd.*

Item no. 1	Description of goods 2	Rate of duty 3
17.	FOOTWEAR (1)—	
	Produced in any factory, including the precincts thereof whereon fifty or more workers are working, or were working on any day of the preceding twelve months, and in any part of which a manufacturing process is being carried on with the aid of power or is ordinarily so carried on, the total equivalent of such power exceeding two horsepower.	
	"footwear" includes all varieties of footwear whether known as boots, shoes, sandals, chappals or by any other name.	Ten per cent <i>ad valorem</i> .
18.	ELECTRIC FANS (2)—	
	including air circulators but excluding those which are designed for use in an industrial system as part indispensable for its operation and have been given for that purpose some special shape or quality which would not be essential for the use for any other purposes, and parts of such electric fans—	
	(1) Table cabin, carriage pedestrian and air circulator fans not exceeding sixteen inches.	One fan 5.00
	(2) All other fans	Do. 10.00
	(3) Parts of fans above, the following namely, complete motors stators and rotors—	
	(x) if designed for use in respect of any fan falling within sub-item (1)—	
	(i) complete motors	Per motor 3.00
	(ii) Stators	Per stator 1.50
	(iii) Rotors	Per rotor 1.50
	(y) if designed for use in respect of any fans falling within sub-item (2)—	
	(i) Complete motors	Per motor 6.00
	(ii) Stators	Per stator 3.00
	(iii) Rotors	Per rotor 3.00
19.	ELECTRIC LIGHTING BULBS AND FLOURESCENT LIGHTING TUBES (2)—	
	(1) Vacuum and gas-filled bulbs.—	Per bulb
	(i) not exceeding 100 watts and train lighting bulbs.	0-1-0
	(ii) exceeding 100 watts but not exceeding 300 watts, {and engine headlight bulbs.	Rs. Np. 0.25
	(iii) exceeding 300 watts	Do. 0.55
	(2) Flourescent tubes	Per foot 0.25
	(3) Bulbs not otherwise specified	Per bulb 0.25
20.	ELECTRIC BATTERIES AND PARTS THEREOF (2)—	
	(1) Dry	Ten per cent. <i>ad valorem</i> .
	(2) Storage	Ten per cent. <i>ad valorem</i> .
	(3) Parts of storage batteries, the following namely containers, covers and plates.	Ten per cent. <i>ad valorem</i> .
21.	PAPER (2)—	
	All sorts, including pasteboard, millboard, straw board, and cardboard in or in relation to the manufacture of which any process is ordinarily carried on with the aid of powers—	
	(1) blotting, toilet, target, tissue other than cigarette tissue, teleprinter, typewriting, manifold, bank bond, art paper, chrome paper, tubsized papers, cheque papers, stamp paper, cartridge papers, and parchment.	Per lb. 0.15
	(2) Cigarette tissue	Do. 0.30
(1)	} Please see foot-note on page 783 ante.

APPENDIX B (i)

RATES OF INCOME TAX AS ON 1ST APRIL, 1958

PART I

Income-tax and surcharge on income-tax

PARAGRAPH A

(i) In the case of every individual who is married and every Hindu undivided family whose total income does not exceed Rs. 20,000 in either case.

Rates of Income-tax

Where the individual has no child wholly or mainly dependent on him or where the Hindu undivided family has no minor coparcener	Where the individual has one child wholly or mainly dependent on him or where the Hindu undivided family has one minor coparcener	Where the individual has more than one child wholly or mainly dependent on him or where the Hindu undivided family has more than one minor coparcener
Rs.	Rs.	Rs.
(1) On the first 3,000 of total income	3,300 of total income	3,600 of total income
(2) On the next 2,000 of total income	1,700 of total income	1,400 of total income
(3) On the next 2,500 of total income	2,500 of total income	2,500 of total income
(4) On the next 2,500 of total income	2,500 of total income	2,500 of total income
(5) On the next 2,500 of total income	2,500 of total income	2,500 of total income
(6) On the next 2,500 of total income	2,500 of total income	2,500 of total income
(7) On the next 5,000 of total income	5,000 of total income	2,500 of total income
		Nil
		3%
		6%
		9%
		11%
		14%
		18%

(ii) In the case of every individual who is not married and every individual or Hindu undivided family whose total income in either case exceeds Rs. 20,000 and in the case of every unregistered firm or other association of persons, not being a case to which paragraph B or Paragraph C or Paragraph D of this Part applies :—

	Rs.
(1) On the first	1,000 of total income
(2) On the next	4,000 of total income
(3) On the next	2,500 of total income
(4) On the next	2,500 of total income
(5) On the next	2,500 of total income
(6) On the next	2,500 of total income
(7) On the next	5,000 of total income
(8) On the balance of total income	25%

Provided that for the purposes of this paragraph—

- (i) no income-tax shall be payable on a total income which does not exceed the limit specified below;
- (ii) the income-tax payable shall in no case exceed half the amount by which the total income exceeds the said limit;
- (iii) the income-tax payable by an individual who is married or a Hindu undivided family whose total income exceeds in either case Rs. 20,000 shall not exceed the aggregate of—
 - (a) the income-tax which should have been payable if the total income had been Rs. 20,000.
 - (b) half the amount by which the total income exceeds Rs. 20,000 ;

The limit aforesaid shall be—

- (i) Rs. 6,000 in the case of every Hindu undivided family which as at the end of the previous year satisfies either of the following conditions, namely :—
 - (a) that it has at least two members entitled to claim partition who are not less than eighteen years of age ; or
 - (b) that it has at least two members entitled to claim partition who are not lineally descended one from the other and who are not lineally descended from any other living member of the family.
- (ii) Rs. 3,000 in every other case.

APPENDIX B (i)

RATES OF INCOME TAX AS ON 1ST APRIL 1958—*contd.***Surcharges on Income-Tax.**

The amount of income-tax computed at the rates hereinbefore specified shall be increased by the aggregate of the surcharges calculated as under :—

(a) A surcharge for purposes of the Union equal to the sum of —

- (i) five per cent. of the amount of income-tax; and
 - (ii) where the earned income included in the total income exceeds Rs. 1,00,000, five per cent. of the difference between the amount of income-tax which would have been payable on the whole of the earned income included in the total income if such earned income had been the total income of Rs. 1,00,000;
- (b) A special surcharge on unearned income at fifteen per cent. of the difference between the amount of income-tax on the total income and the amount of income-tax whole of the earned income, if any included in the total income of such earned income had been the total income :

Provided that—

- (i) no surcharge for purposes of the Union shall be payable where the total income does not exceed that limit specified below ;
- (ii) no special surcharge on unearned income shall be payable in the case of an assessee whose total income does not include any income from dividend on ordinary shares if his total income does not exceed the limit specified below, and where the total income includes any dividends on ordinary shares, such limit shall be increased by Rs. 1,500 or the amount of the said dividends whichever is less :

Provided further that—

- (a) Where the total income includes any dividends on ordinary shares, the surcharge for purposes of the Union and the special surcharge on unearned income shall not in each case exceed half the amount by which the total income exceeds the respective limits applicable in either case ;
- (b) the surcharge for purposes of the Union and the special surcharge on unearned income, both together, shall not exceed half the amount by which the total income exceeds the limit specified below ;

The limit aforesaid shall be—

- (i) Rs. 15,000 in the case of every Hindu undivided family which satisfies as at the end of the previous year either of the following conditions, namely :—
 - (a) that it has at least two members entitled to claim partition who are not less than eighteen years of age ; or
 - (b) that it has at least two members entitled to claim partition who are not lineally descended one from the other and who are not lineally descended from any other living member of the family ;
- (ii) Rs. 7,500 in every other case.

Explanation.—For the purposes of this paragraph, in the case of every Hindu undivided family governed by the Mitakshara law, a son shall be deemed to be entitled to claim partition of the coparcenary property against his father, or grand-father notwithstanding any custom to the contrary.

PARAGRAPH B.

In the case of every company and local authority,—

Rates of income-tax

On the whole of the total income 30%

Surcharge on income-tax

The amount of income-tax computed at the rate hereinbefore specified shall be increased by a surcharge of 5 per cent. thereon.

PARAGRAPH C.

- (1) In every case in which under the provisions of the Income Tax Act, income-tax is to be charged at the maximum rate,—

Rates of income-tax

On the whole of the total income 25%

Surcharge on income-tax

The amount of income-tax computed at the rate hereinbefore specified shall be increased by a surcharge of 20 per cent. thereon.

- (2) In every case in which under the provisions of the Income-tax Act, income-tax is to be deducted at the maximum rate, deduction shall be made from the whole income which is to be subjected to such deduction at the following rates, namely :—

	Rate of income-tax on the whole income	Rate of surcharge on the whole income
In the case of every company	30%	1·5%
In any other case	25%	5%

APPENDIX

APPENDIX B (i)

RATES OF INCOME TAX AS ON 1ST APRIL 1958—contd.

PARAGRAPH D

In the case of every registered firm

Rates of Income-tax

(1) On the first Rs. 40,000 of total income	Nil
(2) On the next Rs. 35,000 of total income	5%
(3) On the next Rs. 75,000 of total income	6%
(4) On the balance of total income	9%

PART II

Super-tax and surcharge on super-tax

PARAGRAPH A

In the case of every individual, Hindu undivided family, unregistered firm and other association of persons not being a case to which any other paragraph of this Part applies,—

Rates of super-tax

(1) On the first Rs. 2,000 of total income	Nil.
(2) On the next Rs. 5,000 of total income	5%
(3) On the next Rs. 5,000 of total income	15%
(4) On the next Rs. 10,000 of total income	20%
(5) On the next Rs. 10,000 of total income	30%
(6) On the next Rs. 10,000 of total income	5%
(7) On the next Rs. 10,000 of total income	40%
(8) On the balance of total income	45%

Surcharges on super-tax

The amount of super-tax computed at the rates hereinbefore specified shall be increased by the aggregate of the surcharge calculated as under :—

- (a) A surcharge for purposes of the Union equal to the sum of,—
 - (i) five per cent. of the amount of super-tax ; and
 - (ii) where the earned income included in the total income exceeds Rs. 1,00,000 five per cent. of the difference between the amount of super-tax which would have been payable on the whole of the earned income included in the total income, if such amount of super-tax payable on a total income of Rs. 1,00,000 ;
- (b) A special surcharge on unearned income at fifteen per cent. of the difference between the amount of super-tax on the total income and the amount of super-tax on the whole of the earned income of any, included in the total income, if such earned income has been the total income.

PARAGRAPH B.

In the case of every local authority,—

Rate of super-tax

On the whole of the total income	16%
--	-----

Surcharge on super-tax

The amount of super-tax computed at the rate hereinbefore specified shall be increased by a surcharge of 12½% thereon.

PARAGRAPH C.

In the case of every association of persons being a co-operative society as defined in clause (5B) of section 2 of the Income-tax Act,—

Rates of super-tax

(1) On the first Rs. 25,000 of total income	Nil.
(2) On the balance of total income	16%

Surcharge on Super-tax.

The amount of super-tax computed at the rates herein before specified shall be increased by a surcharge 12½% thereon.

APPENDIX B (i)

RATES OF INCOME TAX AS ON 1ST APRIL 1958—concl'd.

PARAGRAPH D.

In the case of every company,—

Rates of super-tax

On the whole of the total income 50%

Provided that,—

- (i) a rebate at the rate of 40 per cent. on so much of the total income as consists of dividends from a subsidiary Indian company and a rebate at the rate of 35 per cent. on the balance of the total income shall be allowed in the case of any company which—
 - (a) in respect of its profits liable to tax under the Income-tax Act for the year ending on the 31st day of March, 1959, has made the prescribed arrangements for the declaration and payment within India of the dividends payable out of such profits and for the deduction of super-tax from dividends in accordance with the provisions of sub-section (3D) of section 18 of that Act, and
 - (b) is such a company as is referred to in sub-section (9) of section 23A of the Income-tax Act with a total income not exceeding Rs. 25,000.
- (ii) a rebate at the rate of 40 per cent. on so much of the total income as consists of dividends from subsidiary Indian company and a rebate at the rate of 30% on the balance of the total income shall be allowed in the case of any company which satisfies condition (a) but not condition (b) of the preceding clause.
- (iii) a rebate at the rate of 40% on so much of the total income as consists of dividends from a subsidiary Indian company and a rebate at the rate of 20% on the balance of the total income shall be allowed in the case of any company not entitled to a rebate under either of the preceding clause.

Provided further that—

- (i) the amount of the rebate under clause (i) or clause (ii) shall be reduced by the sum, if any, equal to the amount or the aggregate of the amounts, as the case may be, computed as hereunder :—
 - (a) on that part of the sum arrived at in accordance with clause (i) of the second proviso to paragraph D of Part II of the First Schedule to the Finance Act, 1957, as has not been deemed to have been taken into account, in accordance with clause (ii) of the said proviso, for the purpose of reducing the rebate mentioned therein to nil. such part.
 - (b) on the amount representing the face value of any bonus shares or the amount of any bonus issued to its shareholders during the previous year with a view to increasing the paid-up capital except to the extent to which such bonus shares or bonus have been issued out of premiums received in cash on the issue of its shares ; and at the rate of 30%.
 - (c) in addition, in the case of a company referred to in clause (ii) of the preceding proviso which has distributed to its shareholders during the previous year dividends in excess of six per cent. of its paid-up capital not being dividends payable at a fixed rate—

(A) in the case of a company which is not such as is referred to in sub-section (9) of section 23A of the Income-tax Act,—

- on that part of the said dividends which exceed 6 per cent but does not exceed 10 per cent of paid up capital 10%
- on that part of the said dividends which exceed 10 per cent of the paid up capital and 20%
- (B) in case of any other company—
 - on that part of the said dividends which exceeds 6 per cent. but does not exceed 10 per cent. of the paid-up capital ; at the rate 10%
 - on that part of the said dividends which exceeds 10 per cent. but does not exceed 18 per cent. of the paid-up capital ; at the rate of 20%
 - on that part of the said dividends which exceeds 18 per cent. of the paid-up capital. at the rate of 30%
- (ii) where the sum arrived at in accordance with clause (i) of this proviso exceeds the amount of the rebate arrived at in accordance with clause (i) or clause (ii), as the case may be, of the preceding proviso, only so much of the amounts of reduction mentioned in sub-clauses (a), (b) and (c) of clause (i) of this proviso as is sufficient, in that order, to reduce the rebate to nil shall be deemed to have been taken into account for the purpose :

Provided further that the super-tax payable by a company, the total income of which exceeds rupees twenty five thousand shall not exceed the aggregate of—

- (a) the super-tax which would have been payable by the company if its total income had been twenty-five thousand, and
- (b) half the amount by which its total income exceeds rupees twenty-five thousand.

Explanation 1—for the purposes

- (i) the expression "paid-up capital" means the paid-up capital (other than capital entitled to a dividend at a fixed rate) of the company as on the first day of the previous year relevant to the assessment for the year ending on the 31st day of March, 1959, increased by any premiums received in cash by the company, on the issue of its shares, standing to the credit of the share premium account the first day of the previous year aforesaid ;
- (ii) the expression "dividend" shall be deemed to include any distribution included in expression "dividend" as defined in clause (6A) of section 2 of the Income-tax Act ;
- (iii) where any portion of the profits and gains of the company is not included in its total income by reason of such portion being exempt from tax under any provision of the Income-tax Act, the "paid-up Capital" of the company the amount distributed as dividends (not being dividends payable at the fixed rate) amount representing for the face value of any bonus shares and the amount of any bonus issued to the shareholders shall each be deemed to be such proportion thereof as the total income of the company for the previous year bears to its total profits and gains for that year other than capital receipts reduced by such allowances as may be admissible under the Income-tax Act which have not been taken into account by the company in its profits and loss account for that year.

APPENDIX B (ii)

RATES OF INCOME TAX AND SUPER-TAX
